

SYMBIOTE

Symbiote offers a diverse range of work surface materials options to ensure your workspace is perfectly suited for the tasks at hand. The matrix below visually outlines the characteristics of each material type, serving as a helpful guide in the decision-making process. For more detailed technical information, including specifications on sizes, finishes, backsplash availability, and load capacities, please refer to our product catalog.

	Thickness	Pricing	Chemical Resistance	Abrasion Resistance	Heat Resistance	Impact Resistance	Moisture Resistance	Bacterial Resistance	Application Traits	Applications
Corian	1"	\$\$\$\$\$							Solid Surface. Non-Porous. Stain Resistant. Easy Cleanability	Prep and Pack. Hospital. Medical. Pharmaceutical
Stainless Steel	1.12"	\$\$\$\$\$							Non-Porous. Abrasion Resistant. Anti-Microbial. Easy Cleanability	Clean Room. Biological. Hospital. Medical. Pharmaceutical. Industrial
Epoxy	1"	\$\$\$\$							High Heat. Anti-Microbial. Easy Cleanable	Biological. Life Sciences. Healthcare. Pharmaceutical. Chemical. Clinical
Phenolic	1"	\$\$\$\$							Supreme Durability. Field Modifiable.	Biological. Life Sciences. Healthcare. Pharmaceutical. Chemical. Clinical
Dissipative Laminate	1.25"	\$\$\$							Electrostatic Discharge Needs	Aerospace. Clean Rooms. Device Manufacturing. Electronic Testing. Medical Devices
Hardwood	1.25" & 1.75"	\$\$-\$\$\$							Natural Beauty and Character. Softer Material. Renewable Material.	Electrical. Industrial. Training. Education
Chemsurf Laminate	1.25"	\$							Very Good Chemical and Wear Resistance	Biological. Life Sciences. Healthcare. Pharmaceutical. Chemical. Clinical
Standard Laminate	1.25"	\$							General Use Areas	Workspaces. Collaboration Areas. Technological. Educational
