FOR IMMEDIATE RELEASE

Four Local Businesses Unite to "Pack the Pantry" for Ottawa County Families

Symbiote, Inontime, Worden Company, and Centennial Coatings partner on holiday food drive benefiting Love INC

OTTAWA COUNTY, Mich., November 3, 2026 - Symbiote, Inontime, Worden Company, and Centennial Coatings are once again joining forces to support local families through their "Pack the Pantry" food drive benefiting Love INC, an Ottawa County-based outreach ministry.

Running November 2–16, the initiative brings together employees across the four businesses to collect nonperishable food donations and help replenish local food pantries experiencing critically low supplies. All donations will be delivered to Love INC in time for the holiday season, with transportation generously provided by Inontime.

"Our companies share a commitment to supporting the communities where we live and work," said Kerri Milarch, CEO of Symbiote, Inc. "By bringing our teams together, we have an opportunity to help our neighbors during a season when many families need extra support. We're grateful for the generosity of our employees and the partnership that makes this effort possible."

The returning collaboration reflects the businesses' shared dedication to serving their community. Through the combined contributions of their teams, the partners hope to provide meaningful support to Love INC as it responds to local food needs.

Employees will contribute nonperishable food items at designated collection points throughout the drive. Following its conclusion on November 16, donations will be gathered and transported to Love INC for distribution.
