Welcome to our SIP (Symbiote Integrated Products) catalog. This catalog can change frequently; please review the changes below to keep your printed catalog up-to-date. Reference www.symbiote.com for the latest information.

Updates are noted with the revision (Rev.) date located in the table at the bottom of the page. Changes to the page may include, but are not limited to, the introduction of a new product, change in description or elimination of a product.

- Change Date: effective date of the change made to the catalog
- Page Number: page identified where the change was made
- Description: brief description of the change that was made

Change Date	Page Number	Description
11.01.25	Section 4	Added Corian Surfaces and Square Edge Work Tops. Removed Full-Round Edge and Peninsula Surfaces.
06.26.25	1.8, 1.9, 7.10-15, 10.39, 10.44-55, 12.7	Added Accessory Rail, revised payment terms and warranty details, and revised sink dimension details.
02.27.25	4.25, 8.5	Added Power Distribution Rail and Surface Support Bar.
02.13.25	3.29-32, 12.7	Added Tetrad Table and revised Tote Holder.
01.14.25	1.7, 7.2	Replaced fabric option Cement (M031) with new Limestone (M040).
10.01.24	3.26, 4.10-11, 4.28-29	Revised Symple Table height range. Updated edge descriptions for hardwood.
06.20.24	All	Removal of Sand Fleck laminate offering.
06.13.24	4.40, 8.2, 10.34-35	Added Greenstone Epoxy, Revised Epoxy Surface and Backsplash Edge Profile and revised Plug Strip Outlet Counts.
06.22.22		Removal of ESD paint offering.
01.06.21	2.2, 9.2, 9.3, 11.8	Revised description and/or notes; changed FSE1SM image.
12.24.20	1.7, 3.26, 10.34, 4.40	Added Symple Table Base, Epoxy Lab Surfaces and Epoxy Backspashes.
11.04.20	6.5	DAW Dissipative Arctic White replaced with DW Dissipative White Laminate.
11.02.20	Section 3	Discontinued Hand Control Switch A on electric tables; replaced with J Switch.
10.27.20	12.5; 7.4	Discontinued D Tote; Revised Magnetic White Board.
09.24.20	1.7; Section 4	DAW Dissipative Arctic White replaced with DW Dissipative White Laminate.
08.20.20	10.30, 10.35	Added ADA Lab Legs and ADA Lab Leg Panels.
07.22.20	3.22	Notes section: optional Riser Frame available.
03.12.20	10.21-22	Added Sink Base Cabinets.
01.28.20	3.26	DPF1K (J) replaces DCSW (A) as the standard, included switch.
01.16.20	Section 10.1-24	Revised Section 10 notes for products with locks and how they are keyed.

ABOUT SYMBIOTE

- Symbiote, Inc. (“Symbiote”) manufactures highly specialized furniture for three markets: 1) Health / Life Science; 2) Tech Labs; and 3) Aerospace / Defense. All products and components are engineered with adaptability in mind to support innovative work processes.
- We offer two approaches to serve our customers – a wide range of standard, modular products plus a responsive, custom product development program.

CUSTOM PRODUCT QUOTES

- Please submit your custom requests in the form of a written description of your specifications, and/or a sketch of your application needs. Symbiote will acknowledge the request by fax providing you with a special product number, a quote number and details on pricing and delivery.

ORDERING

- Please order products by using the complete product number. Specify quantity, the product number, description, finish option and any other specifying information. When ordering custom products, include the quote number and special product number provided by Symbiote. Purchase Orders can be submitted electronically to symbiote@symbiote.com; fax to 616.772.1798; or send by conventional mail to 300 N. Centennial Street, Zeeland, MI 49464.

A NOTE

- This catalog serves as a general guide for ordering. The illustrations are typical and may not be a true depiction of each product. The illustrations and descriptions are based on the latest information available at the time of publication. All dimensions listed are nominal. Symbiote reserves the right to make changes at any time without notice to finishes, materials and specifications and also to discontinue finishes and products.

COPYRIGHT INFORMATION

- Symbiote® and ErgoStat® are registered trademarks of Symbiote, Inc.
- Please call, fax or email us with any questions you may have about this catalog or our products.

PRODUCT DESCRIPTION

- Each catalog page provides you with valuable information about each of the products. It is a brief description of what the product is, what it does and what it includes. The Description applies to all product variations on the page unless otherwise noted.

HOW TO SPECIFY

- Specifying information is outlined toward the middle right center of each catalog page. Also note the information contained in the Notes section of the catalog page before specifying.

COLORS AND FINISHES FOR CATALOG ITEMS

- Color and Finish options are identified under the heading "How to Specify" and include the appropriate finishes available for the product on that page. There are a variety of standard and dissipative paint finishes, laminates and fabrics to choose from.

NOTES

- In this section of the catalog we state restrictions, exceptions and important considerations for the application, installation or ordering of the products. There may be options and features that apply to only some of the product variations on the page.

PRODUCT ILLUSTRATION

- Two types of illustrations are provided for your reference. Context drawings of the product allow you to see how the product functions in an actual workstation setting. Dimensional drawings provide you with 2D illustrations of the product and are used in conjunction with the chart at the bottom of the page. The dimensional drawings define which measurements Symbiote classifies as Height (H), Width (W) and Depth (D) on that particular product.

PRODUCT NUMBER

- When ordering, please use the complete product number for the appropriate product variation, including finishes and any other specifying information provided in the Notes.

DIMENSIONS AND WEIGHTS

- Nominal dimensions and weights are provided in standard American measurements of inches and pounds. Metric measurements of millimeters and kilograms are shown in brackets.

PRICES

- Prices are provided in U.S. dollars in the Price Index only. Symbiote offers a product specification service that provides pricing along with drawings and component lists of your stations. Consult your local Symbiote Sales Representative or Symbiote Customer Service Representative to request a quote.

ErgoStat

- ErgoStat® mobile workbenches perform well in applications requiring ergonomic features such as simultaneous adjustability of surface and riser height, articulating trays and holders.
- Add modular components such as parabolic lighting, shelves and drawers to customize your bench.

UltraFrame Bench

- UltraFrame mobile workbenches make it possible to quickly and conveniently roll workstations from one area to another.
- They can be linked side by side or back to back, creating double-sided workstations. Adding stations is done with a minimum of downtime.

Height Adjustable Tables

- Choose from three height adjustable table lines.
- Electric and pin-adjustable models support loads from 750-1,000 pounds, evenly distributed.
- Tables have two travel ranges, 15" and 18", and are available with casters or glides.
- Tables with 15" travel range are ETL recognized.
- Add a surface accessory bracket, a plug strip, bin rail or cable tray above or below the work surface to maximize your workflow.

UltraFrame Lab System

- The UltraFrame series is commonly used in a variety of Lab applications.
- The system can be configured side-by-side or back-to-back, creating double-sided workstations with components adjustable in 1" increments.
- Shelving, electrical and data distributors along with mobile or stationary base cabinets are typical examples of accessories found in these areas.

Mobile Carts

- Mobile carts provide both storage and mobility for small to medium-sized components and products, tools and hardware.
- Shelves and rails hold Totes and Subcontainers in a wide variety of sizes.

Online or printed samples may vary depending on your monitor and printer. To request an actual sample please contact your sales representative.

Standard Paint Finish

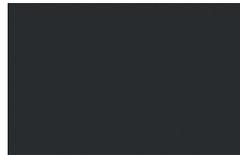

High-efficiency powder paint system produces a consistent coverage and finish. This supports Symbiote's sustainable practices, producing no VOCs and hazardous emissions. Finishes are checked to guarantee quality and color validity.

Rev 01/13/25

LIMITED WARRANTY

SYMBIOTE, INC., a Michigan corporation (“Symbiote”) warrants its standard and non-standard products to be free of defects in material and workmanship from the date of initial delivery for the applicable warranty period specified below. This warranty is made by Symbiote to the original purchaser (“Purchaser”) acquiring the product for its own use, and not for resale, directly from Symbiote or its authorized dealer or distributor. This warranty is not transferable. “Standard products” are those items offered in any Symbiote catalog published on Symbiote’s website as in effect on the date of sale. “Non-standard products” are products that are sold by Symbiote but are not offered in Symbiote’s catalog, including custom and alternative products. Lamps and other consumables are not considered standard or non-standard products and are excluded from this warranty.

Warranty Periods

The warranty periods applicable to Symbiote’s products under this Warranty are as follows:

- 15 years, Seating, unlimited on the pneumatic cylinder
- 12 years, Standard Products
- 5 years, Electric Height Adjustable Tables
- 2 years, Task Lighting
- 1 year, ESD Laminate
- 1 year, Special / Custom Product

Pass-Through Products - manufacturer’s warranty

Exclusive Remedies

If during the first year of the applicable warranty period Purchaser notifies Symbiote in writing of an alleged product defect covered by this warranty, and if Symbiote confirms the product is defective, then as Purchaser’s exclusive remedy Symbiote will repair or replace the defective product, at Symbiote’s option and expense, including labor and materials, F.O.B. Symbiote’s plant. If during the remainder of the applicable warranty period (that is, after year one) Purchaser notifies Symbiote in writing of an alleged product defect covered by this warranty, and if Symbiote confirms the product is defective, then as Purchaser’s exclusive remedy Symbiote will furnish Purchaser with parts and materials (but not labor) necessary to repair the defect, F.O.B. Symbiote’s plant. Symbiote will determine whether to require Purchaser to return defective product to Symbiote. If such a return is required, Purchaser will return the defective product to Symbiote’s plant with all costs prepaid by Purchaser. Repaired or replaced product will be returned to Purchaser at Symbiote’s expense. Symbiote may require Purchaser to establish the product was installed and used according to Symbiote’s published instructions and is within the applicable warranty period by producing invoices or such other evidence as Symbiote may reasonably request.

Limitations and Exclusions

Symbiote has no obligation to make repairs, replacements or corrections that are required, in whole or in part, as the result of (i) failure to install and use product in accordance with Symbiote’s published instructions and notes appearing on customer sign-off drawings provided to Purchaser, (ii) accident, disaster or force majeure, (iii) abuse, neglect, misuse, fault or negligence of persons other than Symbiote, including without limitation any installer engaged by Symbiote’s dealer, distributor or representative (iv) exposure of product to extreme environmental conditions, (v) improper handling or storage of product, (vi) normal wear and tear, (vii) use of product in combination with equipment, components, replacement parts or software not supplied by Symbiote, (viii) alterations, repairs or installations of product that have not been performed by Symbiote or a person Symbiote has expressly authorized to perform the same on Symbiote’s behalf as its employee or agent, (ix) the use of non-standard materials selected by, provided by or used at the express request of Purchaser, or (x) design defects in product. Because of natural variations over which Symbiote has no control, Symbiote does not

warrant matching of color, grain or texture of materials or finishes. This warranty applies only to products manufactured by Symbiote. Notwithstanding any contrary provision in this warranty, components purchased and resold without further processing by Symbiote are not covered by this warranty, but Symbiote will pass on to Purchaser whatever warranty Symbiote receives from the manufacturer of such goods.

EXCEPT AS STATED ABOVE, SYMBIOTE DOES NOT MAKE A WARRANTY AS TO ANY PRODUCT OR GOODS AND, IN PARTICULAR, DOES NOT MAKE A WARRANTY OF MERCHANTABILITY OR OF FITNESS FOR A PARTICULAR PURPOSE.

Product repair or replacement, at Symbiote's option, in accordance with this warranty, is Purchaser's exclusive remedy for a product defect. Symbiote has no tort liability with respect to a product. Symbiote is not liable for any consequential, economic, indirect, special, punitive or incidental damages arising from a product defect. No dealer, distributor, reseller or sales representative of Symbiote's products is authorized to bind Symbiote to any warranty or representation except as stated above.

CONTRACT TERMS

All quotations, proposals, or similar communications from Symbiote are considered "invitations to contract." Any order placed by a customer must be in the form of a written purchase order and shall be considered an "offer." A written acknowledgment of an order by Symbiote shall be considered an "acceptance" which, when mailed, emailed or faxed to the customer, shall then result in a binding sales contract of which these Contract Terms shall be a part. Acceptances may be made only at Symbiote's home office in Zeeland, Michigan, and all sales contracts shall be made pursuant to and controlled by the laws of the State of Michigan. Notwithstanding any inconsistent or contrary term which may appear on a customer's purchase order, Symbiote's products are sold only upon these Contract Terms.

Prices

Published pricing is U. S. dollars. Unless otherwise stated in Symbiote's acknowledgment, all prices are F.O.B. Symbiote's factory, Zeeland, Michigan, or F.O.B. Symbiote's supplier or fulfillment location, as applicable, and do not include freight, storage, handling, uncrating or installation charges. Upon request Symbiote will provide estimated freight charges F.O.B. destination. Prices do not include sales, use, excise or any other taxes or assessments which may be applicable to the sale. Symbiote reserves the right to make changes in pricing without notice.

Ordering Information

A minimum Deposit of 35% is required on all orders placed with SYMBIOTE, INC. for orders with a quoted list price of \$50,000 and higher. For orders above \$250,000 further discussions on the deposit amount will be needed, unless an active contract governing down payment is currently in place. Deposit is due at the time of order entry unless written consent is agreed upon in advance. Payment can be made via standard check or through ACH payment, information available upon request. All orders must be in writing to avoid error and/or duplication. Order all products by their complete product number. Specify quantity, product number, product description, finish option and any other specifying information requested. Submit orders via email, conventional mail or fax on your purchase order form. Acknowledgments are issued within five working days of acceptance of the order with an approximate ship date of the product ordered.

Taxes

In addition to the purchase price, the customer is liable for all sales, use and excise taxes and/or other governmental charges imposed in respect of the sale, delivery or installation of the products being purchased by the customer (except taxes on or measured by net income of Symbiote), including those which Symbiote may be required to pay, except where the law otherwise provides. Unless otherwise specified in Symbiote's acknowledgment, the customer shall pay all such taxes directly to the appropriate taxing authorities.

Payment

The payment terms contained in this paragraph apply only to customers whose credit has been approved by Symbiote. For purchases of standard products, Symbiote offers a one percent (1%) discount off the purchase price (excluding charges for freight, storage, handling, uncrating, installation and taxes) for full payments made in readily available funds (and not by credit card), within ten (10) days after the invoice date. All payments are due within thirty (30) days after the invoice date. Beginning thirty (30) days after the invoice date, the customer shall pay a late payment charge of one and one-half percent (1.5%) per month on any unpaid portion of the purchase price shown on the invoice. Symbiote accepts Visa, Mastercard, and American Express credit cards as a payment option up to \$5,000. Credit card payments are subject to a 5% credit card surcharge. They are not considered "readily available funds" for purpose of the discounts described above. Symbiote reserves the right to revoke or modify these credit terms at any time. See Ordering information (Page 1.9) for down payment requirements.

Retention of Title; Security Interest

Symbiote shall retain title to the products, any replacements thereof, and any additions thereto, for purpose of securing payment of the purchase price and related charges. Title shall not pass to the customer until the purchase price and all sums due hereunder are fully paid. Symbiote is authorized to file a financing statement and other documents necessary to enable Symbiote to place third parties on notice of its title to the products.

Shipment

Freight bills for orders shipped F.O.B. Zeeland, MI, or F.O.B. Symbiote's supplier or fulfillment location will be directly sent from the carrier to Purchaser for direct payment by Purchaser. Orders shipped F.O.B. destination have freight included in the invoice. Special shipping costs, if specified by Purchaser, are the responsibility of Purchaser. Any shipping date shown on the acknowledgment represents Symbiote's best estimate as of the date of acknowledgment. However, Symbiote shall not incur any liability of any kind for failure to ship on any particular date unless a firm shipping date has been expressly agreed to by an officer of Symbiote in a separately signed written instrument. Responsibility for the product and risk of loss shall pass to Purchaser when the product is placed in the possession of a common carrier. Claims against the carrier shall be the responsibility of Purchaser. Claims against Symbiote for apparent defects, errors or shortages must be made in writing to Symbiote within thirty (30) days of receipt of the product, or such claims shall be considered waived and the product accepted as delivered. If Purchaser claims the product delivered is non-conforming, Purchaser shall afford Symbiote prompt and reasonable opportunity to inspect the product. Symbiote's liability for non-conforming product shall be limited to repair or replacement of such product or allowance of credit for such product, at Symbiote's option. If Symbiote and the customer are unable to reach settlement of any claim relating to product, the customer must institute legal action against Symbiote within one (1) year after such claim arises and thereafter all such claims shall be barred, notwithstanding any statutory period of limitations to the contrary.

Selection of Goods

The selection of particular models, styles, colors, fabrics and specifications of product and the suitability thereof for the customer's specific application are the sole responsibility of the customer.

Delays and Change Orders

After the date an order from the customer is acknowledged by Symbiote, the customer may not change the order, in whole or in part, without Symbiote's written approval. All changes must be requested in writing. Where a proposed change would necessitate delays in shipment, Symbiote may condition its approval upon a price change to reflect Symbiote's prevailing prices at the time of such delayed shipment. Orders for non-standard products, including without limitation products with nonstandard finishes, are not subject to change.

Symbiote is not responsible for delays in shipment due to customer-requested changes to an order.

Storage

If the customer requests a delay in shipment after the product has become work in process, Symbiote may place the finished product in storage at the customer's risk and expense, and transfer to storage shall be considered delivery for all purposes, including invoicing and payment.

Cancellation

After the date an order from the customer is acknowledged by Symbiote, the customer may not cancel the order without Symbiote's written approval. All cancellations must be requested in writing. Symbiote's approval of cancellation shall be conditioned on the customer's payment of a cancellation charge of fifteen percent (15%) of the total purchase price and reimbursement of costs incurred by Symbiote prior to such approval, including engineering, testing, material costs, labor and burden and similar expenses in connection with the order cancelled. Orders for non-standard products, including without limitation products with nonstandard finishes, are not subject to cancellation.

Returns

The customer may not return product without Symbiote's written approval. Returns must be requested within 90 days of the original shipment. Symbiote's approval of returns shall be conditioned on the product being returned to Symbiote (i) in compliance with Symbiote's shipping instructions, (ii) within 90 days of the issuance of Symbiote's RGA (Returned Goods Authorization) number, (iii) with all return shipping charges being prepaid by customer, (iv) in a suitable condition for resale, and (v) with the customer's payment of a restocking charge of fifteen percent (15%) of the total purchase price. Symbiote will charge the customer for repairs to returned product at customary rates. Non-standard products, including without limitation, products with nonstandard finishes, are not subject to return.

Damage Limitation

The liability of Symbiote arising out of the sale or use of the product, whether based on negligence, breach of contract, strict liability or otherwise, shall not in any event exceed the original purchase price of the product. Under no circumstances shall Symbiote be liable for any lost profits or any incidental or consequential damages of any kind with respect to its products or the transactions by which its products are sold.

Excuse

In no event shall Symbiote be liable for any loss or damage resulting from any delay or failure in shipment or other failure to perform with respect to the products where such delay, failure, loss or damage is the proximate result of any act of any governmental authority, revolution, riot, civil disorder or disturbance, act of enemies, delay or default in transportation, strike, dispute among or between labor unions or other labor disputes, inability to obtain materials or facilities from normal sources, fire, flood, act of God or any cause not within the reasonable control of Symbiote, whether of the class of causes enumerated or otherwise. Without limiting the generality of the foregoing, Symbiote may, without causing a breach or incurring liability, allocate products which are in short supply for any reason among customers in any manner which Symbiote in its sole discretion considers advisable.

Modification

These contract terms can be modified only by a written instrument signed by Symbiote.

Infringement

If any product sold by Symbiote is to be manufactured according to the customer's specifications, the customer shall indemnify Symbiote against any claims or liability for patent or trademark infringement on account of such manufacture.

ULTRAFRAMES

- Open steel frames provide structural support for hanging components.
- Frames permit vertical adjustment of components in 1" increments.
- Frames attach to all frame styles of equal or unequal height.
- Equipped with attachment points for ESD grounding hardware.
- Frames with Glides: Load capacity 1,000 lbs. per side evenly distributed.
- Frames with Casters: Load capacity 500 lbs. per side evenly distributed. Includes two 4" diameter polypropylene casters with totalock brakes (simultaneously locks the swivel and wheel).

Structural Support Requirements

- Ultra Legs, A Legs and Lab Legs available. Sold separately; see pages 2.8-2.9 and Section 10, respectively.
- Frames on Casters require Joiner Plates for structural support when connected with Panel Connectors, Connector Posts or Corner Connectors. Sold separately; see page 2.7.

Cable Management: 80" High Frame

- Attachment points for horizontal top mounting of Cable Ring Ducts and Cable Ducts Top Mount. Inserts are spaced to accommodate products with the same width as the frames.
- Attachment points for vertical inside mounting of Cable Ducts Frame Mount, Cable Ring Ducts and Plug Strips.
- Can accommodate a 48" component on each side of the inside face of the frame.

NOTES

- » Attach multiple frames with Panel Connectors, Corner Connectors or Connector Posts. Sold separately; see pages 2.5-2.6.
- » 48" and 60" wide frames can be divided with UltraFrame Spines. Sold separately; see page 2.4.
- » Optional Panel End Covers can be ordered to finish exposed hardware. Sold separately; see page 2.10.

ULTRAFRAME CONNECTOR POSTS

- Connector Posts provide panel support outside the boundaries of UltraFrames.
- Posts attach to UltraFrames and panels of the same height without Panel Connectors.
- A Legs and Ultra Legs bolt to both the front and back sides of 48", 62" and 80" high Connector Posts.

NOTES

- » Optional Mid End Covers can be ordered to trim the exposed hardware of Mid Connector Posts when used at the end of Panel runs. Order separately; see page 2.10.
- » Frames on Casters require Joiner Plates. Sold separately; see page 2.7.
- » Connector Posts add additional length to a run of panels.

PANEL AND RIGID CORNER CONNECTORS

Panel Connectors

- Panel Connectors attach adjacent UltraFrames or Panels of equal height in straight lines.
- Order connectors to match the height of the frames.
- Finish is Black.

Height Change Panel Connectors

- Height Change Panel Connectors attach adjacent UltraFrames or Panels of unequal height in straight lines.
- Order connectors to match the height of the shorter frames. For example, 80" high frames connecting to 62" high frames require 62" Height Change Panel Connectors.
- Finish is Black.

NOTES

- » Variable Height End Covers are required to trim the exposed side of the taller frames or connectors when attaching frames or connectors of lesser heights. Order separately; see page 2.10.
- » Corner Connectors add additional length to a run of panels. Panel Connectors add no additional length.

How to Specify

ERGOSTAT BASE, ELECTRIC, 15" TRAVEL RANGE

- Use with a 30" or 36" D surface to construct a height adjustable bench.
- Optional attachable Riser Frame bolts to base to provide upright support for hanging components.
- The electrically driven self-guided aluminum assemblies have a 15" travel range from 26½" to 41½" to the underside of the surface, rising at ¼" per second.
- Bases require 120 Volt, 60 Hz. power. A hand control switch and a 9½' power cord are supplied. Amp draw: 4 Amps.
- Available with leveling glides or 4" polypropylene casters with totallock brakes (simultaneously locks the swivel and wheel).
- Gross dynamic load capacity 750 lbs. evenly distributed.
- Shipped fully assembled. Hand control switch is field installed.
- ETL recognized; conforms to UL Std. 962 and certified to CSA Std. C22.2 No. 68.

NOTES

- » Surfaces sold separately; see Section 4.0. Bases will not accommodate 24" deep surfaces.
- » ErgoStat Riser Frame sold separately; see page 3.6.
- » Optional Footrest and Lower Shelf sold separately; see pages 3.20 - 3.21.
- » Travel range is measured from floor to bottom of surface.
- » International electrical configuration available; consult factory.
- » Hand control switch (Symbiote standard "J") is field installed. Optional styles available; see page 3.27.

- Use with a 30" or 36" deep surface to construct a height adjustable bench.
- Optional attachable Riser Frame bolts to base to provide upright support for hanging components.
- The self-guided aluminum assemblies have a 18" travel range from from 30 1/4" to 48 1/4" to the underside of the surface. Bases adjust in 1" increments with pin-adjustable fasteners.
- Available with leveling glides or 4" polypropylene casters with totalock brakes (simultaneously locks the swivel and wheel).
- Load capacity 500 lbs. evenly distributed.
- Shipped fully assembled.

NOTES

- » Surfaces sold separately; see Section 4.0. Bases will not accommodate 24" deep surfaces.
- » ErgoStat Riser Frame sold separately; see page 3.6.
- » Optional Footrest and Lower Shelf sold separately; see pages 3.20 - 3.21.
- » Travel range is measured from floor to bottom of surface.

ERGOSTAT RISER FRAME

- Open style frame provides upright support for hanging components.
- Frame bolts to ErgoStat Base, adjusting in height with the base.
- Frame permits vertical adjustment of components in 1" increments and provides one attachment point for ESD grounding hardware per unit.
- Equipped with attachment points for Riser Spines; 36" wide Riser Frame excluded.
- Frame features ¼"-20 threaded inserts for vertical inside mounting of Cable Ducts Frame Mount, Cable Ring Ducts and Plug Strips. Riser Frames accommodate a 36" component per side.
- Load capacity 250 lbs.

NOTES

- » Riser Spines sold separately; see page 3.7.
- » Riser Frames extend 38½" above surfaces.
- » End Covers finish exposed hardware. Sold separately; see page 3.7.
- » Do not hang components from the unsupported side of a frame or panel.

ERGOSTAT RISER SPINE + END COVER

Riser Spines

- Riser Spines divide ErgoStat Riser Frames into smaller sections and provide upright support for hanging components.
- Spines permit vertical adjustment of components in 1" increments and bolt to attachment points on Riser Frames.
- Riser Spines provide hanger frames on the front only; spines cannot be used for mounting Center Shelves or saddle-mounted arms.
- Finish is Black.

Riser Frame End Covers

- Metal covers finish exposed hardware on the ends of Riser Frames.
- Sold individually.
- Finish must be specified.

NOTES

- » Riser Frame sold separately; see page 3.6.
- » Riser Spines allowed:
 - 48" - 1
 - 60" - 1 (30-30 or 24-36 split)
 - 72" - up to 2
 - 96" - up to 3

WORKTABLE BASE, ELECTRIC, 15" TRAVEL RANGE

- Use exclusively with Work Surfaces to construct two-sided height adjustable tables.
- 48" wide bases accommodate 48", 60" and 72" wide tops.
- 72" wide bases accommodate 72" and 96" wide tops.
- The electrically driven self-guided aluminum assemblies have a 15" travel range from 26½" to 41½" to the underside of the surfaces, rising at ¼" per second.
- Bases require 120 Volt, 60 Hz. power. A hand control switch and a 9½' power cord are supplied. Amp draw: 4 Amps.
- Available with leveling glides or 4" polypropylene casters with totalock brakes (simultaneously locks the swivel and wheel).
- Gross dynamic load capacity 750 lbs. evenly distributed.
- Shipped fully assembled. Hand control switch is field installed to surfaces.
- ETL recognized; conforms to UL Std. 962 and certified to CSA Std. C22.2 No. 68.

NOTES

- » Work Surfaces sold separately; see Section 4.
- » Optional Lower Shelf sold separately; see page 3.21.
- » Travel range is measured from floor to bottom of surface.
- » International electrical configuration available; consult factory.
- » Hand control switch (Symbiote standard "J") is field installed. Optional styles available; see page 3.27.

Rev 08/15/24

TABLE BASE, ELECTRIC, 18" TRAVEL RANGE, 36" D. SURFACE

- Use with 36" deep surfaces only to construct a height adjustable bench.
- The electrically driven self-guided aluminum assemblies have a 18" travel range from 30 1/4" to 48 1/4" to the underside of the surface, rising at 1/4" per second.
- Bases require 120 Volt, 60 Hz. power. A hand control switch and a 9 1/2' power cord are supplied. Amp Draw: 4 Amps.
- Available with leveling glides or 3" polypropylene locking casters.
- Gross dynamic load capacity 500 lbs. evenly distributed.
- Shipped fully assembled. Hand control switch is field installed to surfaces.
- Uses ETL recognized components.

NOTES

- » Surfaces sold separately; see Section 4. The 36" deep surfaces are limited to 24" deep accessories.
- » Optional Lower Shelf sold separately; see page 3.21.
- » Travel range is measured from floor to bottom of surface.
- » International electrical configuration available; consult factory.
- » Hand control switch (Symbiote standard "J") is field installed. Optional styles available; see page 3.27.

TABLE BASE, POSITIONABLE, 15" TRAVEL RANGE

- Use with 24" and 30" deep surfaces to construct a height adjustable bench.
- The self-guided aluminum assemblies have a 15" travel range from 26½" to 41½" to the underside of the surfaces. Bases adjust in 1" increments with threaded fasteners.
- Available with leveling glides or 3" polypropylene locking casters.
- Load capacity 750 lbs. evenly distributed.
- Shipped fully assembled.
- ETL recognized; conforms to UL Std. 962 and certified to CSA Std. C22.2 No. 68.

NOTES

- » Surfaces sold separately; see Section 4.
- » Optional Lower Shelf sold separately; see page 3.21.

ERGOSTAT FOOTREST

- Footrests support legs and feet when sitting or standing.
- Footrests bolt to ErgoStat and WorkTable Bases with glides or casters.
- Aluminum bars manually adjust forward or back to accommodate sitting or standing and include end caps.
- Finish is Black.

NOTES

- » Footrests will not attach to UltraFrames, Table Bases or 4-Legged Tables.
- » WorkTable Bases accommodate one ErgoStat Footrest per side.
- » Field drilling of holes in feet is required for installation.

LOWER SHELF

- Lower shelf provides general storage below work surface on Table, WorkTable and ErgoStat bases.
- Mounts on glide or caster bases.
- Works well for storing equipment, reagent supplies or heavy boxes.
- The LES and LTS include two lock-down tabs and a shelf with a ½" raised edge that is positioned in the back.
- The LWS includes four lock-down tabs without a raised edge allowing access from either side.
- No hardware or tools are needed for assembly.
- Load capacity 200 lbs. evenly distributed.

NOTES

» Lower Shelf for 4-Legged Table available; see page 3.28.

4-LEGGED TABLE, GLIDES

- Table has leveling glides and a 14" travel range measuring 26 1/8" to 40 1/8" from the floor to the bottom of the work surface. Adjusts in 1" increments with threaded fasteners.
- Heavy-duty welded steel front and back frame construction. Lower side leg cross-bar for added strength and stability.
- Use with Standard Surfaces or Work Surfaces to construct a height adjustable table. Surfaces are not pre-drilled for these bases.
- Lower Shelves and Surface Accessory Brackets available; see below.
- Ships knocked down and is easily assembled with gusset plates.
- Load capacity 1,000 lbs. evenly distributed.

NOTES

- » Standard and Work Surfaces sold separately; see section 4. Surfaces are not pre-drilled for these bases.
- » Optional Lower Shelves sold separately; see page 3.28.
- » Optional Surface Accessory Brackets sold separately; see Section 4.
- » Travel range is measured from floor to bottom of surface.
- » Optional Riser Frame available; see page 2.9 in the ErgoStat Pro Catalog.

4-LEGGED TABLE, CASTERS

- Table has a 14" travel range measuring 30⁷/₈" to 44⁷/₈" from the floor to the bottom of the work surface. Adjusts in 1" increments with threaded fasteners.
- Heavy-duty welded steel front and back frame construction. Lower side leg cross-bar for added strength and stability.
- Includes 4" polypropylene casters with totallock brakes (simultaneously locks the swivel and wheel).
- Use with Standard or Work Surfaces to construct a height adjustable table. Surfaces are not pre-drilled for these bases.
- Lower Shelves and Surface Accessory Brackets available; see below.
- Ships knocked down and is easily assembled with gusset plates.
- Load capacity 880 lbs. evenly distributed.

NOTES

- » Standard and Work Surfaces sold separately; see section 4. Surfaces are not pre-drilled for these bases.
- » Optional Lower Shelves sold separately; see page 3.28.
- » Optional Surface Accessory Brackets sold separately; see Section 4.
- » Travel range is measured from floor to bottom of surface.

SYMPLE TABLE BASE, ELECTRIC, 26" TRAVEL RANGE

- Use with 24", 30" and 36" deep surfaces to construct a height adjustable table.
- Telescoping, expandable base with 28" D foot fits surface widths from 48" to 96".
- UL Listed Base has a 26" travel range, 19" to 45" measured from the underside of the surface.
- Built-in anti-collision technology.
- Dynamic load capacity of 350 pounds, evenly distributed.
- Base rises 1½" per second with a 5% duty cycle.
- Complies with: IEC/EN 60335-1 part 1. UL962 4th edition, UL2999 1st edition and CSA C22.2 No. 68-18 8th edition.
- Meets: ANSI/BIFMA X5.5: 2014 (up to 72")
- Includes a 9½' power cord and a standard hand control switch.
- Ships knocked down.

NOTES

- » Surfaces sold separately; see Section 4.
- » Travel range is measured from floor to bottom of surface.
- » Base does not accommodate battery pack.

LOWER SHELF, 4-LEGGED TABLE

- A 1¼" high laminate Lower Shelf provides general storage below the surface on glide or caster 4-Legged Table bases.
- Available in full or half depth sizes.
- Load capacity for the half size Lower Shelf is 100 lbs. evenly distributed.
- Load capacity for the full size Lower Shelf is 200 lbs. evenly distributed.
- Lower Shelf attaches to the 4-Legged Table support bars with hook and loop strips.
- Lower Shelves have square corners with matching edge band.

NOTES

- » Lower Shelf is not designed to work with Ergostat, WorkTable or Table Bases. See page 3.21 for other lower shelf options.
- » Half size unavailable for 24" deep 4-Legged Tables.

Rev 06/20/24

ULTRA SURFACES, ESD LAMINATE, SQUARE EDGE

- 1¼" tall high pressure laminate surfaces mount to ErgoStats®, Table Bases, UltraFrames and Panels.
- Symbiote dissipative surfaces are manufactured with Nevamar® Static Dissipative Laminates (SDL). Nevamar SDL is manufactured to have a point to point and point to ground resistance of 1 x 106 to 1 x 109 ohms @ 10-60% relative humidity. Nevamar SDL conforms to ESD Association Standard ESD-S4.1.
- Dissipative surfaces include a Laminate Grounding Terminal Kit.
- Surfaces have square corners with matching square edge-band.
- Corner surfaces include one corner bracket.
- Surfaces are predrilled for supports and most accessories.
- Load capacity is 500 lbs. evenly distributed.

NOTES

- » For corner surfaces order left- and right-side supports separately; see pages 4.31 - 4.33.
- » Surface supports sold separately; see pages 4.31 - 4.33.
- » 72" and 96" wide frame-mounted surfaces must be supported in the center by Surface Cantilever Supports. Specify one 18" cantilever per 24" and 30" deep surface and one 24" cantilever per 36" deep surface.
- » Customers are responsible for specifying ESD surface requirements; corporate ESD standards must be consulted prior to ordering.

How to Specify

Step 1. Product Number

- UDS Rectangular Surface, Square Edge
- UCDS Corner Surface, Square Edge

Step 2. Depth

24 24" deep 30 30" deep 36 36" deep

Step 3. Width (Corner is 48" only)

24 24" wide 30 30" wide 36 36" wide
 48 48" wide 60 60" wide 72 72" wide
 96 96" wide

Step 4. Laminate Color Code

- DBK Dissipative Black
- DG Dissipative Grey
- DNW Dissipative Neutral White
- DS Dissipative Sand
- DW Dissipative White

ULTRA SURFACES, HARDWOOD, 1 1/4" FULL RADIUS EDGE

- 1 1/4" tall Hardwood Surfaces mount to ErgoStats®, Table Bases, UltraFrames and Panels.
- Surfaces consist of kiln-dried hardwood strips that are face glued, sanded smooth and finished with a two coat catalyzed varnish.
- 1 1/4" tall Hardwood has a full radius front edge with square-edged backs and sides.
- Corner surfaces include one corner bracket.
- Surfaces are predrilled for supports and most accessories.
- Load capacity 500 lbs. evenly distributed.

NOTES

- » For corner surfaces order left- and right-side supports separately; see pages 4.31 - 4.33.
- » Surface supports sold separately; see pages 4.31 - 4.33.

ULTRA SURFACES, STAINLESS STEEL

- Stainless Steel Surfaces are made for areas where high abrasion, chemical resistance and sterilization are required.
- Surfaces mount to ErgoStats®, Table Bases, WorkTables, UltraFrames and Panels.
- Manufactured using 16 gauge stainless steel with a #4 brush finish.
- Surface is constructed of a stainless steel "cap" (tops and sides are formed from one sheet of steel with welded corners) assembled to a core which is laminated with backer material. The joint between the cap and core is sealed around the full perimeter.
- Load capacity is 500 lbs. evenly distributed.

NOTES

- » Surface supports sold separately; see pages 4.31 - 4.33.
- » 72" and 96" wide frame-mounted surfaces must be supported in the center by Surface Cantilever Supports. Specify one 18" cantilever per 24" and 30" deep surface and one 24" cantilever per 36" deep surface.

PHENOLIC SYSTEMS SURFACES

- 1" tall solid Phenolic Resin Surfaces are made for highly corrosive environments with exceptional chemical and wear resistance. Contact factory for detailed chemical resistance test data.
- Surfaces mount to ErgoStats®, Table Bases, WorkTables, UltraFrames and Panels.
- Surfaces have smooth 1/8" radius corners and are predrilled for end surface supports.
- Load capacity 300 lbs. evenly distributed.
- Finish is Black.

NOTES

- » Surface supports sold separately; see pages 4.31 - 4.33.
- » 72" and 96" wide frame-mounted surfaces must be supported in the center by Surface Cantilever Supports. Specify one 18" cantilever per 24" and 30" deep surface and one 24" cantilever per 36" deep surface.
- » Phenolic (undrilled) Lab Surfaces available; see Section 10.

Rev 02/12/18

CORIAN SYSTEMS SURFACES

- 1.25" high Corian work surfaces have a .75" thick particle board core with a white malamine backer and .50" thick Corian.
- Corian work surfaces are used in areas where high chemical resistance and wear resistance are required.
- Surfaces mount to ErgoStats®, Table Bases, WorkTables, Tetrad Tables and UltraFrames.
- Surfaces have a square edge and are pre-drilled for end surface supports.
- Load capacity 300 lbs. evenly distributed.

NOTES

- » For corner surfaces order left and right side supports separately; see pages 4.31 - 4.33.
- » Surface supports sold separately, see pages 4.31 - 4.33.
- » 72" and 96" wide frame-mounted surfaces must be supported in the center by Surface Cantilever Supports. Specify one 18" cantilever per 24" and 30" deep surface and one 24" cantilever per 36" deep surface.

STD. SURFACES, ESD LAMINATE, SQUARE EDGE

- 1¼" tall high pressure ESD laminate surfaces mount to ErgoStats®, Table Bases, UltraFrames and Panels.
- Symbiote dissipative surfaces are manufactured with Nevamar® Static Dissipative Laminates (SDL). Nevamar SDL is manufactured to have a point to point and point to ground resistance of 1 x 106 to 1 x 109 ohms @ 10-60% relative humidity. Nevamar SDL conforms to ESD Association Standard ESD-S4.1.
- Dissipative Surfaces include a Laminate Grounding Terminal Kit.
- Surfaces have square corners with matching square edge-band.
- Corner surfaces include one corner bracket.
- Surfaces are predrilled for supports and most accessories.
- Load capacity 300 lbs. evenly distributed.

NOTES

- » Corner surfaces ship with one corner bracket. Order left- and right-side supports separately; see pages 4.31 - 4.33.
- » Surface supports sold separately; see pages 4.31 - 4.33.
- » 72" and 96" wide frame-mounted surfaces must be supported in the center by Surface Cantilever Supports. Specify one 18" cantilever per 24" and 30" deep surface and one 24" cantilever per 36" deep surface.
- » Customers are responsible for specifying ESD surface requirements; corporate ESD standards must be consulted prior to ordering.

How to Specify

Step 1. Product Number

- SDS Rectangular Surface, Square Edge
- SCDS Corner Surface, Square Edge

Step 2. Depth

- 24 24" deep 30 30" deep 36 36" deep

Step 3. Width (Corner is 48" only)

- 24 24" wide 30 30" wide 36 36" wide
- 48 48" wide 60 60" wide 72 72" wide
- 96 96" wide

Step 4. Laminate Color Code

- DBK Dissipative Black
- DG Dissipative Grey
- DNW Dissipative Neutral White
- DS Dissipative Sand
- DW Dissipative White

WORK SURFACES, ESD LAMINATE, T-EDGE

- 1¼" tall high pressure laminate surfaces mount to WorkTable Bases or 4-Legged Tables to construct a height adjustable table.
- Each surface includes a Laminate Grounding Terminal Kit (72" and 96" surfaces have two).
- Nevamar® Static Dissipative Laminates (SDL) conform to ESD Association Standard ESD-S4. SDL has a point to point and point to ground resistance of 1x106 to 1x109 ohms @10-60% relative humidity.
- Surfaces have a matching vinyl T-edge around the full perimeter (with 1" radius corners).
- 30" deep Work Surfaces do not accept surface mounted accessories deeper than 12".
- 36" deep Work Surfaces do not accept surface mounted accessories deeper than 15".
- 42" deep Work Surfaces do not accept surface mounted accessories deeper than 18".
- 48" deep Work Surfaces do not accept surface mounted accessories deeper than 21".
- Load capacity 500 lbs. evenly distributed.

WORK SURFACES, STAINLESS STEEL

- Provides durable work surface for areas where high abrasion, chemical resistance and sterilization are required.
- Surfaces mount to WorkTable or 4-Legged Table Bases only.
- Surfaces are manufactured using 16 gauge stainless steel with a #4 brush finish.
- Surface is constructed of a stainless steel "cap" (tops and sides are formed from one sheet of steel with welded corners) assembled to a core which is laminated with backer material. The joint between the cap and core is sealed around the full perimeter.
- Load capacity is 500 lbs. evenly distributed.

SURFACE B SUPPORT BRACKETS

- Brackets provide manual height adjustable support for Ultra or Work Surfaces mounted to Ultra Leg Supports.
- Brackets allow for surface heights to be adjusted in 1" increments. Height to the top of the support bracket ranges from 25⁷/₈" to 35⁷/₈" when used with Ultra Legs (UL25**) and from 30⁷/₈" to 40⁷/₈" when used with Ultra Legs (UL30**).
- Extended brackets are for use with 36" deep surfaces, while the 18⁵/₈" deep brackets are for use with 24" and 30" deep surfaces.

NOTES

- » 72" and 96" wide frame-mounted surfaces must be supported in the center by Surface Cantilever Supports. Specify one 18" cantilever per 24" and 30" deep surface and one 24" cantilever per 36" deep surface.

How to Specify

Step 1. Product Number

- WBL10** B Support Bracket, left
- WBR10** B Support Bracket, right
- WBEL10** B Support Bracket, extended, left
- WBER10** B Support Bracket, extended, right

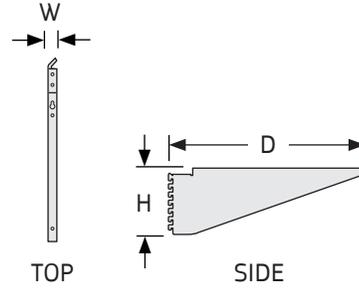

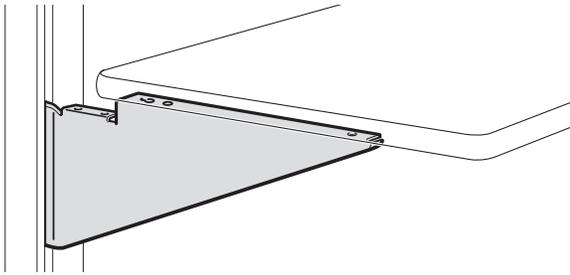

Step 2. Paint Color Code

Rev 10/01/19

SURFACE CANTILEVER SUPPORTS

- Cantilevers provide manual height adjustable support for 24" and 30" deep Ultra or Work Surfaces mounted to UltraFrames or Panels.
- Cantilevers have a cut-out at the rear allowing for the pass through of cords and cables.

NOTES

- » Use 24" supports with 24" and 30" deep surfaces; 36" deep surfaces require Extended Surface B Support Brackets; see page 4.31.
- » 72" and 96" wide frame-mounted surfaces must be supported in the center by Surface Cantilever Supports. Specify one 18" cantilever per 24" and 30" deep surface and one 24" cantilever per 36" deep surface.

FRAME-MOUNT SURFACE SUPPORTS

- Supports mount to return UltraFrames and Panels providing rigid support for the left and right edges of Ultra or Standard Surfaces.
- Brackets are vertically adjustable in 1" increments.
- Frame-Mount Surface Supports are sold individually and are non-handed for surface depths of 30" and greater.
- Brackets have two hanger clip mounting positions to accommodate both standard and Lab Height Modules.

How to Specify

Step 1. Product Number

- WSB** Frame-Mount Support, Non-Handed

SURFACE ACCESSORY BRACKETS

- Brackets provide mounting locations for accessories above or below the surface.
- Short Surface Accessory Brackets are non-handed and mount Electric Plug Strips approximately 1” above the surface, or can be flipped over to mount plug strips 2½” below the surface.
- Tall Surface Accessory Brackets are handed and can be used to mount Dispensing Rails, Bin Rails, Slatwall Rails, Electric Plug Strips or Air Strips above the surface.
- The tall brackets can also be flipped over and mounted to the underside of the surface to support Frame-mount Cable Trays or Electric Plug Strips.
- Brackets are sold in pairs and mount to surfaces with wood screws.
- Finish is Black.

NOTES

- » Two pairs of Tall Surface Accessory Brackets are shown in the image above.
- » Ultra Surfaces, Standard Surfaces and Work Surfaces are not pre-drilled for Surface Accessory Brackets.

SURFACE GAP FILLERS AND LEVELING PLATES

Surface Gap Fillers

- Surface Gap Fillers cover the gaps between back-to-back surfaces mounted on UltraFrames.
- Painted steel fillers have a spring form fit and work with all surface types.
- Finish must be specified.

Surface Leveling Plates

- 10 gauge steel plates fasten to the underside of adjacent surfaces providing additional support and alignment for the front edges.
- Finish is Black.

Grommets

- Plastic wiring grommet provides power and data cable management through the work surface.
- Grommet has removable cap with adjustable opening for desired cable capacity.
- Field installed using a 3-1/8" (79mm) hole saw.
- Finish is Black.

NOTES

GROUNDING HARDWARE

Cable Kit Assemblies

- Cable Kit Assemblies provide for frame-to-frame grounding.
- Kits also provide for grounding of dissipative workstation components to the grounding captivators in frames, Plug Strips and Electrical Distributors.
- Assemblies consist of 48" fully extended coil cords with multi-stud ring terminals.

Common Point Grounds

- Common Point Grounds provide multiple grounding points for dissipative components in ESD workstations.
- Nickel plated steel plates attach to grounding points on UltraFrames, ErgoStat® Riser Frames and UltraFrame Spines.
- The ¼" thick plates measure 5" by 1¾".

Ground Balls

- Ground Balls provide grounding for dissipative UltraFrames with Casters to ESD floors.
- Assemblies consist of 1" diameter 10/10 steel back copper, chrome plated balls riveted to 6" nylon coated stainless steel cables with ¼" eyelets.
- Specify one Ground Ball per mobile workstation.

Ground Chains

- Ground Chains provide grounding for dissipative UltraFrames with Casters to ESD floors.
- Assemblies consist of two 6" tangle free chains composed of ¼" diameter stainless steel balls with ¼" eyelets.
- Specify one pair of Ground Chains per mobile workstation.
- All dissipative ErgoStats, Table Bases, WorkTables, Mobile Frames and Tote Frames come equipped with Ground Chains upon ordering.

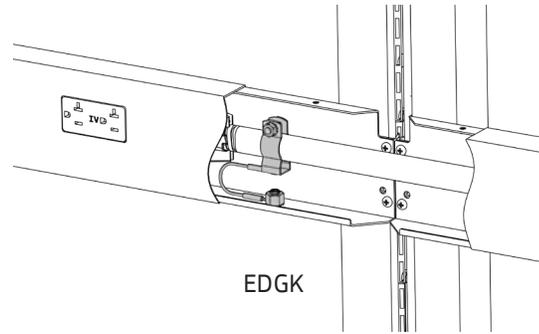

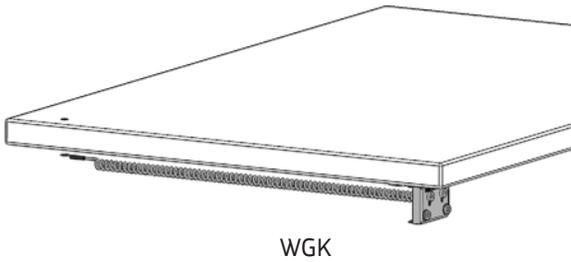

How to Specify

Rev 05/08/12

GROUNDING KITS

Wrist Strap Grounding Kit

- Kits provide grounding for two wrist straps at one common point to ground.
- Attach to the underside of dissipative surface.
- Grounding block has two 4mm banana plug receptacles, and 48" fully extended coil cords with ring terminals.
- Includes two 10mm "parking studs" to prevent damage to wrist strap cord when not in use.
- Surfaces are not predrilled for Wrist Strap Grounding blocks.
- Wrist straps are not provided by Symbiote.
- Front face of WGK measures 2½" by 2".

Electrical Distributor Grounding Kit

- Electrical Distributor Grounding Kit provides a grounding point on the bottom of an Electrical Distributor when used in conjunction with an Electrical Distributor Jumper Cable and Entry Cable.
- Assembly includes a conduit clamp, ¼-20 threaded insert, and required mounting hardware.

NOTES

- » Verify ESD ground path with an electrical tester before connecting components to the ground point.

MULTI-FUNCTION SHELVES

- Multi-Function Shelves provide general storage in workstations.
- Assemblies include two steel support brackets and one shelf with a ½" raised edge that can be positioned in the front or back. No hardware or tools are needed for assembly.
- Shelves mount flat or in a sloped position.
- Load capacity 200 lbs. evenly distributed.

Shelf Depth	Shelf Slope
11"	24°
15"	17°
18"	21°
24"	15°

NOTES

- » When mounted on fabric or laminate panels in the flat position, there is a 3/8" gap between the back of each shelf and the panel limiting the amount of space for cord drops.
- » Shelf Add-on Lip sold separately; see page 6.3.
- » Greenlee Manual Round Knockout Punches can be purchased for field installation of shelf grommets. See manufacturer's website.

CENTER SHELVES, ADJUSTABLE

- Shelves provide general storage in workstations.
- Shelves mount within the openings of UltraFrames and can be center mounted or offset 4" to the front or back of the frames.
- Assemblies include two steel support brackets and one shelf with a 1/2" raised edge that can be positioned in the front or back. Positioning of the brackets provides raised edges on the left and right sides when mounted.
- Shelves mount flat or in one of two sloping positions, 8° or 16°. Slopes are set with threaded fasteners.
- Load capacity 200 lbs. evenly distributed.

NOTES

- » Center Shelves cannot be mounted on ErgoStat Riser Spines.

CORNER SHELVES, LAMINATE WITH BRACKETS

- Shelves provide general storage in corner workstations.
- The 1" high double-sided laminate shelves include matching vinyl Edge-band.
- Assemblies include three steel support brackets which are notched to allow for the routing of cables.
- Nevamar® Static Dissipative Laminate (SDL) surfaces have a Point to point and point to ground resistance of 1 x 10⁶ to 1 x 10⁹ ohms @ 10-60% relative humidity. Conforms to ESD Association Standard ESD-S4.1.
- Dissipative shelves are manufactured using dissipative laminate on the top side with matching non-dissipative laminate on the underside and each include a Laminate Grounding Terminal Kit.

NOTES

- » Corner Shelves are predrilled for Universal Cable Trays; see page 9.5.
- » 36" and 48" wide shelves are predrilled for Shelf Mount Light Brackets for 32" wide LED High Performance Task Lights; see page 8.7.
- » Other dissipative laminates available upon request; consult factory.
- » Customers are responsible for specifying ESD surface requirements; corporate ESD standards must be consulted prior to ordering.

HIGH DENSITY SHELVES

- High density shelves mount on a frame, panel or wall strips.
- Shelves are vertically adjustable in 2½" increments and can be installed in three positions (flat, 11 and 22 degrees).
- Available as a three shelf or five shelf unit.
- Load capacity is 200 lbs. per unit (both three and five shelf units).
- Add-on shelves and front shelf lips also available.

NOTES

- » End panels are constructed of MDF board and are powder coated.
- » Mounting brackets and shelves are metal and color matched.

ROLL-OUT SHELVES

- Shelves provide general storage in workstations.
- Shelves roll out for easy access to the backside of the shelf and lock in the closed position using the push-button release adjacent to the handle of the front of the shelf.
- Assemblies include full-extension ball-bearing slides, two steel support brackets, a stretcher and a shelf with a single handle and push-button release allowing one-handed operation of the shelf lock.
- Shelves extend from the front of the 21⁷/₈" brackets when fully extended. Handle extends 1¹/₄" from the front of the shelf.
- Load capacity 150 lbs. evenly distributed.

NOTES

- » Shelf cannot be mounted next to Ultra Legs attached to the same UltraFrame. Connector Posts with Ultra Legs or return frames must be used for support.
- » No more than one loaded shelf should be extended at the same time.
- » Extended Ultra Legs or 30" wide return frames are recommended; consult factory for design guidelines.

STORAGE CABINETS

- Storage Cabinets provide secure storage in workstations.
- Steel assemblies each include two shelf ends, a bottom shelf, one door unit including top and a back panel.
- Doors retract above the top panel and are equipped with individual key locks for security.
- Storage cabinets meet or exceed ANSI-BIFMA standards for safety and reliability.

NOTES

- » Storage Cabinet doors are keyed randomly and differently from the other. Contact factory for other keying options. Available key numbers are UM226 thru UM425.

PLUG STRIPS

- Plug Strips provide single circuit, 15 Amp or 20 Amp, 110 Volt outlets where needed on frames.
- Each strip includes NEMA configuration 5-15R/5-20R black simplex receptacles and a 5-15P/5-20P plug.
- Strips mount horizontally to frames on hanger clips.
- Each strip includes a lighted, rocker-actuated circuit breaker with a built-in safety guard and an 8' power cord.
- One threaded insert located on each end of the Plug Strip allows for the grounding of dissipative workstation components.
- 15 Amp Plug Strips conform to ANSI/UL std.1363 and CSA C22.2 No.308.

NOTES

- » A 36" long plug strip may be mounted vertically inside the ErgoStat Riser Frame.
- » A 48" long plug strip can be mounted vertically inside an 80" high Ultra Frame.
- » Power cords exit the end of each strip where the switch is located.
- » 20 Amp Plug Strips will not plug into 15 Amp Plug Strips.
- » 15 and 20 Amp Plug Strips are available with NEMA L5-15P and L5-20P twist lock plugs; consult factory.

UTILITY MOUNTING BRACKETS

- Sold in pairs, Utility Mounting Brackets provide easy adaptability to Symbiote stations for junction boxes and vertical and horizontal mounting of standard Wiremold®, without defacing the framework.
- Steel brackets have a solid face on which to mount electrical product with self drilling screws. Integral clips hang in 1" increments on frames.
- Brackets mount adjacent to each other at the juncture of two frames providing flat stationary surfaces on which to mount vertical electrical product and junction boxes with self drilling screws.
- Brackets also mount opposite each other on frames providing flat surfaces on which to mount horizontal electrical product with self drilling screws.
- Finish is Black.

NOTES

- » Junction box and horizontal mounting requires one pair of brackets; vertical mounting requires two pairs.

LED LIGHTS

High Output LED Lights

- High output LED lighting provides high efficiency lighting for general tasks. 3500K temperature, 84CRI and 50,000 hour life span.
- Touch-and-hold continuous dimming with 10 hour automatic shut off.
- Starter kits include one 60W Power Supply with 12' cord.
- Adder kits include the light, (1) 8" and (1) 30" length jumper; Power Supply not included.
- Color is clear anodized aluminum housing with white end caps.

Occupancy Sensor

- Passive infrared (PIR) integrated occupancy sensor automatically turns off all interconnected fixtures after 30 minutes of no movement detection.

NOTES

- » Includes screw and pivoting magnetic mounting kit complete with adhesive cord managers.
- » Additional jumpers sold separately.
- » End-to-end connectors can be used between lights in place of a jumper.
- » Recommended shelf sizes are:
 - 17" LED Light - 24", 30" and 36"
 - 31" LED Light - 48" and larger
 - 44" LED Light - 60" and larger
 - 58" LED Light - 72"

How to Specify

Step 1. Product Number

GENERAL LED TASK LIGHTS

- General LED Task Lights provide illumination where needed with a lifespan of 52,000 hours and a 3500k color temperature.
- Light features touch pad dimming with last state memory to further adjust light intensity and automatic shut off.
- Low profile design mounts with magnets under Multi-function, Storage, Center and Bookend Shelves, plus Storage Cabinets, in the flat position.
- Color is silver with black end caps.

NOTES

- » Does not mount to Cantilever or Shelf Mount Light Brackets.

LED HIGH PERFORMANCE TASK LIGHTS

- LED Lights provide illumination for assembly tasks.
- Lights mount under shelves with Shelf Mount Light Brackets or to frames with Cantilever Light Brackets.
- Lights include premium glass tube LED lamps and a 9' cord with rear right-hand exit.
- Lights are available with batwing or glare reducing parabolic lenses and with two or four lamps.
- Four lamp fixtures have two switches allowing two or four lamps to be lit.
- Color temperature 4100k.

NOTES

- » Mounting brackets sold separately; see pages 8.9 - 8.10.
- » Lights are available for UK applications with a BS 1363A plug.
- » Lights are available for EU applications with a CEE 7/7 "Schuko" plug.
- » To order United Kingdom or European Task Lights, consult factory.

CANTILEVER LIGHT BRACKETS

- Sold in pairs, Cantilever Light Brackets provide overhead frame-mounted support for High Performance Task Lights and Overhead Tool Travelers.
- Low profile brackets mount flush with the top of frames when mounted in their highest position.
- High profile brackets extend 7½" above frames when mounted in their highest position.

NOTES

- » Use extended brackets when shelves 15" deep or greater are mounted below lights.
- » LED High Performance Task Lights and Tool Travelers sold separately; see pages 8.8 and 12.13.
- » General LED Task Lights do not mount to Cantilever Light Brackets.
- » Cantilever Light Brackets allow lights to span between two adjacent frames that are connected by a Panel Connector as well as mount to individual frames.

How to Specify

Step 1. Product Number

SHELF MOUNT LIGHT BRACKETS

Shelf Mount Light Brackets, Flat and Angled

- Sold in pairs, Shelf Mount Light Brackets mount High Performance Task Lights beneath Bookend, Center, High Density and Multi-Function Shelves as well as Storage Cabinets.
- Brackets provide side-to-side and fore and aft adjustment.
- Brackets allow Task Lights to span between two adjacent Bookend, High Density and Multi-Function Shelves as well as Storage Cabinets, when shelves are mounted in the flat position with brackets extending above the shelves.
- Flat Shelf Mount Brackets mount to shelves in the flat position, and Angled Shelf Mount Brackets mount to shelves in sloped positions.

Shelf Mount Light Brackets, Laminate Corner Shelf

- Brackets mount 32" wide LED High Performance Task Lights beneath 36" and 48" wide Laminate Corner Shelves.

NOTES

- » LED High Performance Task Lights sold separately; see page 8.8.
- » If ordering a light to be mounted under a storage cabinet you will need a SMB (Shelf Mount Light Bracket, Flat) and a LSB13 (Light Spring Bar).

How to Specify

Step 1. Product Number

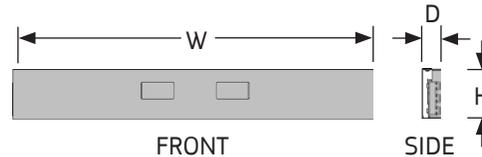

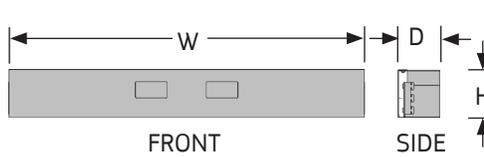

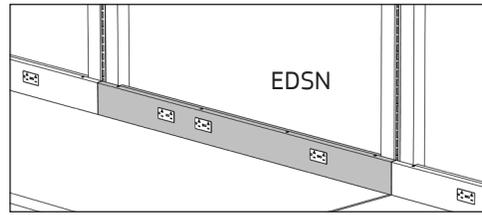

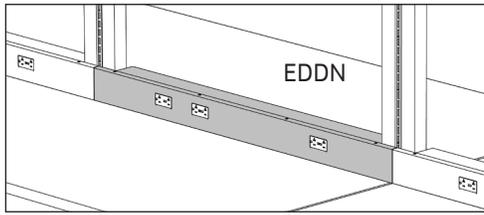

- SMB** Shelf Mount Light Bracket, flat
- SMBA** Shelf Mount Light Bracket, angled
- WSMB** Shelf Mount Light Bracket, corner
- LSB13** Light Spring Bar

Step 2. Paint Color Code (excludes LSB13)

ELECTRICAL DISTRIBUTORS, INSET-MOUNT

- Inset-Mount Electrical Distributors provide either single- or double-sided pre-wired electrical distribution throughout workstations.
- Mounts only to UltraFrames; also functions as a surface backstop.
- Duplex receptacles are ordered separately; their interchangeability permits a variety of circuit combinations to configure on site.
- The eight-wire electrical system is UL Listed as a manufactured Wiring System (UL183) and UL Recognized as an Office Furnishing Accessory (UL1286).
- The system distributes up to four 20 Amp circuits using 20 Amp duplex receptacles.

NOTES

- » Duplex Receptacles sold separately; see page 8.16.
- » Electrical Entry and Jumper Cables sold separately; see page 8.15.
- » Electrical Distributors meeting in a 90° degree corner, spanning a three or four-way connection, or feeding from a Vertical Distributor require mitering of the front cover. To specify a mitered cut to the left or right side of the front cover, substitute a "1" in place of the "0" in the product number depending on left or right side modification, i.e. EDDN4801 (right) and EDSN3610 (left) cut cover.
- » To ground dissipative workstation components to the Electrical Distributor order a Electrical Distributor Grounding Kit; see page 5.3.

How to Specify

ELECTRICAL DISTRIBUTOR RECEPTACLES

Duplex Receptacles

- Duplex Receptacles provide access to circuits 1, 2, 3 (black finish) and isolated ground circuit 4 (orange finish) on Electrical Distributors. Receptacles include circuit identification stamped on the face.
- Maximum of 13 per circuit per building source.
- Electrical Distributor cover and/or internal junction block removal is required to install and reconfigure receptacles within the Electrical Distributor.
- Integrates with an eight-wire electrical system, UL Listed as a Manufactured Wiring System (UL183) and UL Recognized as an Office Furnishing Accessory (UL1286).
- Use Single-depth for Face-Mount Electrical Distributors (EDSF) and Inset-Mount Single-Sided Electrical Distributors (EDSN).
- Use Double-depth for Inset-Mount Double-Sided Electrical Distributors (EDDN).

Blank Dust Cover

- Plastic cover slides into the junction block of the Electrical Distributor where the block is not equipped with a Duplex Receptacle.
- Works with all Electrical Distributor styles.
- Finish is Black.

NOTES

» 15 Amp duplex receptacles are also available; consult factory.

DATA DISTRIBUTORS, FACE-MOUNT

- Face-Mount Data Distributors provide a double-sided chase for routing data cables throughout workstations.
- Mounts to UltraFrames, Wall Track or Solid Panels.
- Cut-outs are sized for faceplates with a 3.28" screw spacing; the clearance in each opening is 2.84" W by 2.25" H. Faceplates and data jacks are not included. Two #6-32 clip-on nuts are included per opening for faceplate fastening.
- The pass-thru area between adjacent Face-Mount Data Distributors is approximately 3.8 in.²

NOTES

- » Data Distributors feeding from a Vertical Distributor require modification of the front cover. Specify a "1" in place of one of the "0" in the product number, depending on the left or right side modification; i.e. DDF3601 (right) or DDF3610 (left) hand entry.
- » Data Distributors meeting in a 90° corner or spanning a three- or four-way connection require mitering of the front cover. Specify a "2" in place of one of the "0" in the product number, depending on left or right side modification; i.e. DDF4802 (right) or DDF3620 (left) miter.

DATA DIST. ROUTERS/END COVERS, FACE-MOUNT

Router

- Face-Mount Data Distributor Routers guide cables at a 2" radius between Face-Mount Data Distributors and/or Vertical Distributors.
- Chase Entry Data Distributor Routers mount to Data Distributors with a "1" style front modification on the left or right side of the distributor.
- Two-way Corner and Three-way Frame Span Data Distributor Routers mount to Data Distributors with a "2" style front modification on each distributor.

End Cover

- As an optional visual cap, the End Cover can be added to the left or right end (specify L/R) of a Data Distributor.
- Includes knock-out tab for cable entry.
- Mounts to "0" style (uncut) ends; see page 8.17.

NOTES

- » DDRF2 contains internal guides and required mounting hardware and does not have a color finish option.

DATA DISTRIBUTORS, INSET-MOUNT

- Inset-Mount Data Distributors provide a double-sided chase for routing data cables throughout workstations.
- Mounts only to UltraFrames; will also fit behind surfaces to function as a surface backstop.
- Cut-outs are sized for faceplates with a 3.28" screw spacing; the clearance in each opening is 2.84" wide by 2.25" high. Faceplates and data jacks are not included. Two #6-32 clip-on nuts are included per opening for faceplate fastening.
- The pass-thru area between adjacent Inset-Mount Data Distributors is approximately 1.5 in.²

NOTES

- » Data Distributors feeding from a Vertical Distributor require modification of the front cover. Specify a "1" in place of one of the "0" in the product number, depending on the left or right side modification; i.e. DDN4801 (right) or DDN3610 (left) hand entry.

VERTICAL DISTRIBUTORS

- Vertical Distributors connect UltraFrames with Glides or Panels at 90° angles while providing concealed single/double chases for dropping electrical and data supply cables.
- Chase area has a cross-sectional 1.64" x 4.37" cable clearance.
- Cover panels are secured with ¼-turn fasteners enabling easy access to installed cabling.
- Allows entry of power and data cables into Electrical and/or Data Distributors in adjustable heights from 30" to 60" above the floor. Access Panels vary between Inset-Mount and Face-Mount style Electrical and Data Distributors.
- Can be configured in the field to connect 48", 62" or 80" high UltraFrames or Panels.
- Mid End Covers (MEC80) are used to cover exposed hardware on the end of the Vertical Distributors.

NOTES

- » For transitions between Electrical and Vertical Distributors, specify Electrical Distributors with a chase entry cut end; see pages 8.11-8.12. To order Electrical Distributor Chase Entry Cover, consult factory.
- » For transitions and cable bend radius control between Data and Vertical Distributors, specify Data Distributors with a chase entry cut end; see pages 8.15-8.16. To order Data Distributor Entry Router separately, consult factory.

AIR STRIPS

- Air Strips distribute compressed air or low pressure vacuum service in workstations.
- Each strip includes two single swivel or two single fixed ¼" Quick Disconnect Fittings in locations left front (L1) and right front (R1) or left bottom (L2) and right bottom (R2). Other combinations can be field installed by purchasing additional components.
- Includes bulkhead unions on each end with push-in fittings for ½" OD tube for connection of adjacent strips and connection to building air sources.

NOTES

- » Compressed Air Entry/End Kits (CAEK) and Compressed Air Tube Kits (CATK) sold separately; see page 8.23.
- » Additional Quick Disconnect (QD) Fittings and accessories sold separately; for field installation of other combinations of fittings see page 8.23.
- » Only 48" and 60" Air Strips have left middle (LM) and right middle (RM) locations for QD fittings. They install in position 2 only. The 24", 30" and 36" strips can accommodate two QD fittings; 48" and 60" accommodate up to four QD fittings.
- » For additional fitting options consult factory.

COMPRESSED AIR ACCESSORIES

Compressed Air Entry/End Kits (CAEK)

- CAEKs provide air connection to building air supplies and provide termination for runs. One kit is required for each entry and end of single or multiple runs of Tool Travelers with Air or Air Strips. Kits include 60" of ½" OD nylon tubing, a ¼" by ⅜" FPT nipple, a ½" push-in by ⅜" MPT straight adapter and a termination plug.

Compressed Air Tube Kits (CATK)

- CATKs provide additional tubing to install compressed air service to workstations; order to connect adjacent Air Strips in a run. Kits include fifty feet of ½" OD nylon tubing and a Tube Cutter.

Compressed Air Coiled Tube Kits (CAC)

- CACs provide for flexible delivery of compressed air from Tool Travelers with Air to air tools in workstations. Kits include 60" of ¼" ID coiled poly tube with a ¼" Quick Disconnect fitting on one end for attachment to an air tool and a ¼" push-in by ¼" MPT straight adapter on other end for attachment to the Tool Traveler Car.

Tube Cutters (TCUT)

- Required to make straight cuts in nylon tube for proper connection of air fittings on Tool Travelers with Air or Air Strips.

Termination Plugs (TPLUG)

- Plastic plugs enclose the ends of ½" OD nylon tube to terminate air runs.

NPT Straight Adapters (NPT)

- The ½" push-in by ⅜" MPT straight adapters attach to the ½" OD nylon tube on Tool Travelers with Air or Air Strips allowing connection to building air supplies.

9

CABLE DUCTS

- Cable Ducts provide vertical and horizontal cable management in workstations.
- Composed of PVC slotted duct with flush mount duct covers that snap on and off for easy access.
- Frame-mounted Cable Ducts are fastened to painted steel plates. Assemblies mount vertically on the centerline of two inline frames or horizontally on frames with hanger clips.
- Frame-mounted Cable Ducts also fasten vertically on the inside of 80" and 96" high UltraFrames to captivators.
- One 48" frame-mounted Cable Duct per side mounts to captivators inside 80" high UltraFrames. One 24" and one 48", two 36" or one 72" Cable Duct per side mounts to captivators inside 96" high UltraFrames.
- Vertical mount Cable Ducts fasten off center of two inline frames with three hanger clips and plates.
- Top-mount Cable Ducts fasten to captivators or knockouts in top cross members of 80" and 96" high UltraFrames with #10-24 screws.
- Self mount Cable Ducts attach anywhere on frames with pressure sensitive adhesive tape for temporary or permanent mounting.
- Cable Ducts feature 5/8" scored fingers providing additional access for cable leads.
- Finish is Black.

How to Specify

Step 1. Product Number

- CDF Frame-Mount Cable Duct
- CDFV Vertical Mount Cable Duct, 72" only
- CDS Self Mount Cable Duct, 72" only
- CDC Top Mount Cable Duct, 72" only

Step 2. Width

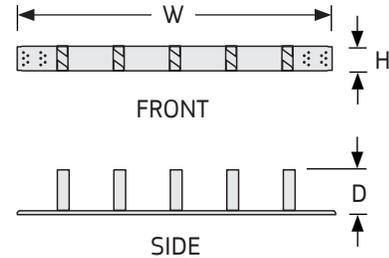

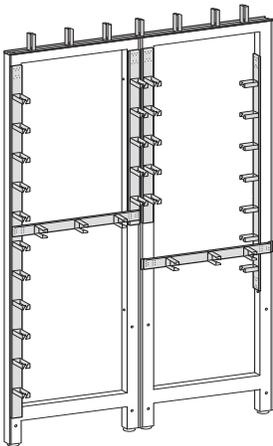

- 24 24" wide 30 30" wide 36 36" wide
- 48 48" wide 60 60" wide 72 72" wide

NOTES

- » Self mount, Vertical mount and Top mount Cable Ducts can be cut to size in the field.
- » UL recognized, CSA certified. PVC duct carries a UL flammability rating of 94V-0.

Product Number	Description	Height		Width		Depth		Weight	
		in.	[mm]	in.	[mm]	in.	[mm]	lb.	[kg]

Rev 01/06/21

CABLE RING DUCTS

- Cable Ring Ducts provide easy access to bulk cable management.
- Openings on each ring allow for easy access and clearance of cables while the angle of the opening restrains the cables once in place.
- Ducts mount horizontally or vertically to frames on hanger clips.
- Ducts mount vertically on the inside or horizontally on the top of 80" and 96" high UltraFrames to captivators.
- One 48" Cable Ring Duct per side mounts to captivators inside 80" high UltraFrames. One 24" and one 48", two 36" or one 72" Cable Ring Duct per side mounts to captivators inside 96" high UltraFrames.
- Top captivators or knockouts accommodate Cable Ring Ducts the same width as the respective frames or run of frames. For example, a 48" Cable Ring Duct can be mounted across the top of a 48" wide frame or across the top of two adjacent 24" wide frames.
- Finish is Black Texture.

NOTES

- » Two vertical Cable Ring Ducts can mount adjacently at the juncture of two frames.
- » Special hole patterns allow the ends of perpendicularly mounted Cable Ring Ducts and 12 Port Data Chases to stack sharing common frame space. 60" and 72" Cable Ring Ducts have a third set of holes near the center of their length allowing for this perpendicular stacking.

ULTRAFRAME

ERGOSTAT

CABLE TRAYS, UNIVERSAL

- Cable Trays provide horizontal storage for electrical cords and communication cabling below Ultra Surfaces and Laminate Corner Shelves.
- Trays fasten to the bottom of surfaces and can be positioned to the centerline of UltraFrames or mounted flush to the back of surfaces for applications with solid Panels, ErgoStat™ Riser Frames and Table Bases.
- Finish is Black Texture.

NOTES

- » Use with:
 - CTUABT 24" frames, 36" Table Bases and ErgoStats
 - CTUBBT 30" frames
 - CTUCBT 36" frames, 48" Table Bases and ErgoStats
 - CTUDBT 48" frames, 60" Table Bases and ErgoStats
 - CTUEBT 60" frames, 72" Table Bases and ErgoStats
- » Cable Trays can be used together with Surface Back Stops, sold separately; see page 4.30.
- » Cable Trays cannot be mounted flush to the back of Laminate Corner Shelves.

UNICLIPS AND D-RINGS

Uniclips

- Uniclips provide for the mounting of D-rings and other components containing a 1 3/4" spaced mounting hole pattern. This hole pattern lines up with EIA units of standard racks.
- Components with a single mounting hole such as conduit rings can also be mounted.
- Steel plates are tapped for 1/4 -20 screws and the hole pattern allows for components to be mounted in a variety of locations. Integral clips hang in 1" increments on frames and can be spaced according to user requirements.
- Finish is Black.

D-rings

- D-rings mount to Uniclips in several different locations providing vertical or horizontal cable management.
- Plastic rings can be mounted on the left or right sides of the Uniclips providing vertical cable management on both the left and right sides for double vertical runs of cables.
- Rings can be mounted on the top or bottom of the Uniclips providing frame-to-frame horizontal cable management on both the top and bottom for double horizontal runs of cables.
- Interior dimensions of the 1" D-ring are 1 1/4" wide by 2 1/2" deep and the 2" D-ring are 2 1/2" wide by 2 1/2" deep.
- Gap in ring shifts aside for easy access to cables.
- Finish is Black.

NOTES

» D-rings can also be mounted directly to the EIA units of Rack Modules.

MOBILE BASE CABINETS, DOUBLE DRAWER & DOOR

- Built to SEFA standards, Cabinets are constructed of welded 18 and 20 gauge steel with a chemical resistant epoxy powder coat paint finish.
- Drawers have full-extension ball bearing, plated drawer slides.
- Doors have 5-knuckle stainless steel institutional type hinges.
- Sound deadened doors and drawers have "double pan" construction with a bar pull.
- A removable bottom pan and a single full-depth adjustable shelf is included with each cabinet. Additional shelves available; consult factory.
- Available with or without locks. Locking cabinets with multiple doors/drawers per unit will have the same key number per unit. Individual units will be keyed randomly and differently from the other. Contact factory for other keying options. Available key numbers are LL226 thru LL327.
- Mobile units have a solid steel top and back with two front total lock casters and two rear swivel casters.

NOTES

- » Base Cabinets can be used in conjunction with UltraFrame, Lab Legs and support brackets; see pages 2.2, 10.27-10.29.
- » Recessed pulls available; consult factory.

SUSPENDED BASE CABINETS, DRAWER/DOOR

- Suspended Base Cabinets can be hung from the underside of surfaces and 4-Legged Table Cabinet Mounting Brackets.
- Built to SEFA standards, Cabinets are constructed of welded 18 and 20 gauge steel with a chemical resistant epoxy powder coat paint finish.
- Drawers have full-extension ball bearing, plated drawer slides.
- Doors have 5-knuckle stainless steel institutional type hinges.
- Sound deadened doors and drawers have "double pan" construction with a bar pull.
- A removable bottom pan and a single full-depth adjustable shelf is included with each cabinet. Additional shelves available; consult factory.
- Available with or without locks. Locking cabinets with multiple doors/drawers per unit will have the same key number per unit. Individual units will be keyed randomly and differently from the other. Contact factory for other keying options. Available key numbers are LL226 thru LL327.
- Units are open on top and have a solid steel back panel.

NOTES

- » Load capacity (includes cabinet and content) cannot exceed 500 lbs. Load capacity of the suspended cabinet does not supercede support component load rating.
- » The suspended component(s) reduces the surface load capacity by an amount equal to the suspended component and its contents.
- » Recessed pulls available; consult factory.
- » 4-Legged Table Cabinet Mounting Brackets sold separately; see page 10.16.

MOBILE BASE CABINETS, SINGLE DOOR

- Built to SEFA standards, Cabinets are constructed of welded 18 and 20 gauge steel with a chemical resistant epoxy powder coat paint finish.
- Doors have 5-knuckle stainless steel institutional type hinges.
- Sound deadened doors have "double pan" construction with a bar pull.
- A removable bottom pan and a single full-depth adjustable shelf is included with each cabinet. Additional shelves available; consult factory.
- Available with or without locks. Locking cabinets with multiple doors/drawers per unit will have the same key number per unit. Individual units will be keyed randomly and differently from the other. Contact factory for other keying options. Available key numbers are LL226 thru LL327.
- Mobile units have a solid steel top and back with two front total lock casters and two rear swivel casters.

NOTES

- » Base cabinets can be used in conjunction with UltraFrame, Lab Legs and support brackets; see pages 2.2 - 2.3 and 10.25 - 10.27.
- » Recessed pulls available; consult factory.

BASE CABINETS, SITTING HEIGHT, DOUBLE DRAWER

- Built to SEFA standards, Cabinets are constructed of welded 18 and 20 gauge steel with a chemical resistant epoxy powder coat paint finish.
- Drawers have full-extension ball bearing, plated drawer slides.
- Sound deadened drawers have "double pan" construction with a bar pull.
- Available with or without locks. Locking cabinets with multiple doors/drawers per unit will have the same key number per unit. Individual units will be keyed randomly and differently from the other. Contact factory for other keying options. Available key numbers are LL226 thru LL327.
- Mobile units have a solid steel top and back with two front total lock casters and two rear swivel casters.
- Stationary units are open on top, contain a removable back panel and include leveling glides.

NOTES

- » Base cabinets can be used in conjunction with UltraFrame, Lab Legs and support brackets; see pages 2.2 - 2.3 and 10.25 - 10.27.
- » Double drawer unit is only available in sitting height (29" high).
- » Recessed pulls available; consult factory.

SUSPENDED BASE CABINETS, DRAWERS

- Suspended Base Cabinets can be hung from the underside of surfaces and 4-Legged Table Cabinet Mounting Brackets.
- Built to SEFA standards, Cabinets are constructed of welded 18 and 20 gauge steel with a chemical resistant epoxy powder coat paint finish.
- Drawers have full-extension ball bearing, plated drawer slides.
- Sound deadened drawers have "double pan" construction with a bar pull.
- Available with or without locks. Locking cabinets with multiple doors/drawers per unit will have the same key number per unit. Individual units will be keyed randomly and differently from the other. Contact factory for other keying options. Available key numbers are LL226 thru LL327.
- Units are open on top and have a solid steel back panel.

NOTES

- » Load capacity (includes cabinet and content) cannot exceed 500 lbs. Load capacity of the suspended cabinet does not supercede support component load rating.
- » The suspended component(s) reduces the surface load capacity by an amount equal to the suspended component and its contents.
- » Recessed pulls available; consult factory.
- » 4-Legged Table Cabinet Mounting Brackets sold separately; see page 10.16.

SINK BASE CABINET, ADA, DOOR TO FLOOR

- Built to SEFA standards, Cabinets meet ADA height requirements and are constructed of welded 18 and 20 gauge steel with a chemical resistant epoxy powder coat paint finish.
- Sound deadened doors have "double pan" construction with a bar pull.
- Doors have 5-knuckle stainless steel institutional type hinges.
- Door to floor ADA Sink Base Cabinet door opening includes a integrated toe kick (opens with door).

NOTES

- » Sink Bases can be used in conjunction with UltraFrame, Lab Legs and support brackets; see pages 2.2 - 2.3 and 10.27 - 10.29.
- » Recessed pulls available; consult factory.

WALL CASES, GLASS DOORS

- Built to SEFA standards, Cabinets are constructed of welded 18 and 20 gauge steel with a chemical resistant epoxy powder coat paint finish.
- Single or double glass doors are available with or without locks.
- A single full depth adjustable shelf is included with each 24" high cabinet and two shelves are included with each 30" high cabinet.
- Sound deadened doors have "double pan" construction with a bar pull.
- Doors have 5-knuckle stainless steel institutional type hinges.
- All standard wall cases are 13" deep.
- Wall cases include the necessary hardware for mounting to either UltraFrames, Wall Strips or directly to a wall.
- Available with or without locks. Locking cabinets with multiple doors/drawers per unit will have the same key number per unit. Individual units will be keyed randomly and differently from the other. Contact factory for other keying options. Available key numbers are LL226 thru LL327.

NOTES

» Additional shelves, 16" cabinet depth and recessed pulls available; consult factory.

CANTILEVER BRACKETS

- Lab Cantilever Brackets provide manual height adjustable support for 24" and 30" deep work surfaces mounted to UltraFrames supported by Lab Legs.
- Cantilevers also provide mid support for surfaces wider than 60".

NOTES

- » Use 24" cantilevers with 24" and 30" deep surfaces. 36" deep surfaces should be supported with Lab Legs and Adjacent Brackets; see pages 10.27-10.29.
- » 72" and 96" wide frame-mounted surfaces must be supported in the center by Lab Cantilever Brackets. Specify one 18" cantilever per 24" and 30" deep surface and one 24" cantilever per 36" deep surface.
- » Cantilever brackets cannot be used with Lab Reinforcement Bars.

LAB HEIGHT B SUPPORTS

- Brackets provide manual height adjustable support for Ultra or Work Surfaces mounted to Ultra Leg Supports.
- Height range is 26½" to 36½" for CLM and 31½" to 41½" for CLT.
- Lab Height B Supports allow for surface height alignment with Lab Leg mounted surfaces and provide clearance for Base Cabinets at the nominal 29" and 35" bracket heights.
- Extended brackets are for use with 36" deep surfaces, while the 18½" deep brackets are for use with 24" and 30" deep surfaces.

NOTES

- » 72" and 96" frame-mounted surfaces must be supported in the center by Lab Cantilever Brackets. Specify one 18" cantilever per 24" and 30" deep surface and one 24" cantilever per 36" deep surface.

LAB LEGS

- Lab Legs provide standing support for UltraFrames.
- Legs bolt to connection points on both the front and back sides of UltraFrames and Connector Posts (80" high max).
- Legs are each equipped with a leveling glide. Lab Legs with Casters also include a 4" diameter polypropylene caster with totalock brake (simultaneously locks swivel and wheel) and can only be attached to UltraFrames with Casters. Lab legs with Glides bolt to UltraFrames with Glides or Connector Posts.
- Lab Legs cannot be used to support 96" high UltraFrames.
- Surfaces can be mounted directly to the top of Lab Legs mounted inboard of the frame. Outboard mounted Lab Legs require Adjacent Brackets to support the surface.

NOTES

- » The nominal Lab Leg depth must match the nominal surface depth.
- » Adjacent Brackets sold separately; see page 10.28.

SURFACE REINFORCEMENT BARS

- Lab Reinforcement Bars provide horizontal support under work surfaces for increased rigidity.
- Bars are sold in pairs and mount at the front and 20" behind the front of Lab Legs.
- Bars adjust over a 6" range to accommodate inboard and outboard Lab Legs and Adjacent Bracket clearance.
- Finish is Black.

NOTES

» Lab Reinforcement Bars cannot be used with Lab Cantilever Brackets.

PHENOLIC LAB SURFACES

- 1" high solid Phenolic Lab Surfaces are full width and depth and can be mounted to Base Cabinets and/or surface supports.
- Surfaces have smooth 1/8" radius corners and edges.
- Surfaces are not predrilled, but include a drip groove inset from the front edge of the surface.
- Phenolic resin material is specifically manufactured for highly corrosive environments and provides exceptional chemical and wear resistance. Contact factory for detailed chemical resistance testing data.
- Load capacity 300 lbs. evenly distributed when supported every five feet.
- Finish is Black.

NOTES

- » Mounting hardware is not included; recommended attaching method is silicone adhesive.
- » See Section 4 for Phenolic Backsplash.

LAB CABINET FILLERS

Rear Base Cabinet Fillers

- Rear Fillers are used in the space between the rear of the cabinet and the wall.
- Fillers provide a clean finished look when surfaces are deeper than the base cabinets and conceal any utilities that are routed behind cabinets.
- Includes a filler panel and a slip joint, which mounts to the wall.

Inside Corner Base Cabinet Fillers

- Corner Fillers are used where two base cabinets meet at a ninety degree angle.
- Includes an angled filler panel, which provides either 1", 2" or 4" clearance between cabinet fronts, mounting clips to attach the filler to the cabinets, and a toekick to conceal cabinet spacing.

NOTES

- » Hardware is not provided to mount filler slip joint to wall.

LAB CABINET FILLERS, CONT'D

Front Cabinet Fillers

- Front Fillers are used when there is excess space between the side of the Base Cabinet or Floor Case and a wall.
- Filler kit includes a filler panel, mounting clips to attach the filler to the cabinet, a slip joint, which mounts to the wall and a toekick to conceal cabinet spacing.
- Filler panel and toekick can be cut to width in the field to accommodate custom spacing.

NOTES

- » Hardware is not provided to mount filler slip joint to wall.
- » It is not recommended to cut cabinet fillers shorter than 1.5" in width to ensure they fully engage the slip joint assembly.

LAB LEG FILLERS

- Lab Leg Fillers are used to fill the gap between Lab Legs and adjacent Base Cabinets in an end of run configuration using a Three-way Connector.
- Fillers mount directly to Lab Legs without the need to add holes or hardware to either the leg or adjacent cabinet.

NOTES

- » Hardware to attach Lab Leg Filler is included with the Lab Leg Panel; see page 10.31. If Lab Leg Panels will not be used in conjunction with Lab Leg Fillers, please consult factory for Lab Leg Filler hardware ordering information.
- » Order two half gap style fillers if the difference between the total cabinet width and frame run is 9½" or greater. Order a single full gap filler if the cabinet/frame run difference is 5½".
- » Two half gap style fillers are shown in the above image.

DRAIN BOARD, FRAME-MOUNT

- Frame-mount drain board is constructed of 20 gauge, type 304 stainless steel, polished to a #4 finish.
- Drain boards allow you to quickly dry important, and often fragile, equipment in a sanitary manner.
- Integral stainless steel drip trough included.
- Includes a 3' section of clear plastic drain tubing.

NOTES

- » Standard 6" white pegs are included.

How to Specify

SINK, UNDERMOUNT

- Undermount sinks are installed under a cutout in the surface. Sink supports are required (see below).
- Stainless steel sinks are constructed of 18 gauge, type 304 stainless steel, polished to a #4 finish.
- Stainless steel sinks include stainless steel drain with crumb cup strainer and tailpiece.
- Epoxy sinks are resistant to many acids, solvents and other inert chemicals.
- Epoxy sinks include a sink outlet with strainer plate and integral tailpiece.

NOTES

- » Sinks can be paired with Symbiote phenolic and stainless steel worksurfaces. (See Section 4).
- » Stainless Steel sinks are certified to ASME A112.19.3.

EYEWASH STATIONS

Eyewash/Drench Hose Unit, Deck Mounted

- Dual purpose, eyewash/drench hose assembly can be left as a fixed eye wash or removed to use as a drench hose.
- Two outlet heads with “flip-top” dust covers are mounted on chrome plated brass supply arms.
- Locking clip engages when handle is depressed. Valve stays open until locking clip is released.
- Includes an 8' reinforced PVC hose. 275 PSI hose rating. Unit is completely assembled and water tested prior to shipment.

Swing Activated Eyewash Unit, Deck Mounted

- Eyewash unit is deck mounted on counter next to sink. Spray heads swivel 90° from storage to operational position.
- Includes twin spray heads with protective covers and a large push handle. Water flow is activated by flag handle; specify LH or RH.
- Unit is completely assembled and water tested prior to shipment.

NOTES

- » Eyewash stations can be easily mounted next to the sink for maximum accessibility.
- » Eyewashes meet the provisions of ANSI Z358.1-2014.

How to Specify

Rev 02/26/18

BALL VALVES

Ball Valves

- Single or double ball valves offer on/off control of lab gasses at pressures up to 75 psi.
- Fixtures have a forged brass valve body and lever handle with chrome-plated brass ball and molded PTFE seals.
- Valves have a 3/8" NPT male inlet with 3/8" IPS mounting shank, washer and locknut.
- 3/8" NPT female outlet includes removable ten serration hose end and color-coded index disc on the quarter turn lever handle.
- Finish is polished chrome plating.

Hoses

- Hose assemblies have a 3/8" NPT male connector on each end, include a 3/8" NPT female elbow connector and are rated for 300 psi maximum working pressure.
- PVC style hoses have a 5/8" O.D. reinforced PVC hose with nylon braid and 3/8" I.D. PVC inner core.
- Stainless steel hoses have a stainless steel overbraid with PTFE inner core.
- Hose length specified in inches (096 and 120 are standard lengths).

NOTES

- » Fixture certified by CSA International to comply with ASME A112.18.1M and CSA B125.1.
- » Fixture is fully assembled and factory tested prior to shipment.

BODY

PLUG

CEILING SERVICE PANEL, QUICK CONNECTS

Ceiling Service Panel

- Ceiling Service Panels are designed to fit in standard 2' x 2' ceiling grid openings.
- Made with 16 gauge sheet metal, ceiling service panels have (16) quick connect knockouts and (8) single electrical and/or data knockouts.

Quick Connect Fittings

- Quick Connect bodies and plugs are finished with polished chrome plated brass.
- Internal quick connect valve components are stainless steel to assure compatibility with the service and to assure durable performance.
- Quick Connect Plugs have an internal shut-off valve that closes when the valve is disengaged.

Cover Plates

- Cover Plates are stainless steel.

Arm Mount Platform and Notebook Holder 11.9

KEYBOARD AND MOUSE TRAY, SURFACE-MOUNT

- Keyboard Trays provide storage for keyboards beneath surfaces.
- 10⁵/₈" deep by 20¹/₈" wide keyboard platform includes a black non-skid pad and a removable foam wrist rest that leaves 8" of useable tray depth when in place.
- Trays feature 4¹/₄" of spring assisted vertical travel and have a tilt adjustment range of 0 to -10°.
- Trays swivel 360° and feature sliding tracks that provide a 16" travel range allowing trays to retract under surfaces. In the forward most position, the front of the Keyboard Tray extends 14" from the front of the surface.
- Keyboard mechanisms adjust in height with a simple one-handed motion without the use of locks, levers or knobs. Unique angle adjustment levers allow users to simply adjust the angle by sliding the lever from left to right.
- A 9" diameter round Mouse Tray is included with each Keyboard Tray. Mouse Trays can be mounted on the left or right side of Keyboard Trays and swivel 360° to hide under the trays when not used with a mouse.
- Mouse Trays include a black non-skid pad and moveable stopper to protect the mouse from falling off the tray.
- Load capacity 25 lbs.
- Finish is Black.

Rev 03/20/12

CPU HOLDER

- CPU Holder provides vertical storage of central processing units below surfaces.
- Holder features a sliding track which allows the unit to retract 9" from the front of the track and extend 4" from the front of the track.
- Holder can be mounted without the sliding track directly to a surface for use with tables with stretchers.
- Fits CPUs 3" to 9" wide and 13.50" to 19.25" tall.
- Units swivel 360° for easy access.
- Load capacity 75 lbs.
- Finish is Black.

FRONT

ACCESSORY MOUNTING BRACKETS

- Accessory Mounting Brackets suspend a CPU Holder or Keyboard and Mouse Tray from the underside of a 4-Legged Table.
- Brackets mount to the bottom of the surface with screws provided in the computer accessory kit.
- Load capacity 75 lbs.
- Finish is black.

NOTES

- » Works with Keyboard and Mouse Trays on 30" and 36" deep tables (not 24" depth). Sold Separately; see page 11.2.
- » Compatible with CPU Holders on all table depths. Sold separately; see page 11.3.

MONITOR ARMS, BOLT/CLAMP MOUNT

Monitor Arms for Surfaces

- Arms include both 75mm and 100mm VESA mounting brackets and support monitors/accessories up to 15 lbs.
- Arms provide a 360° view in portrait or landscape, with built-in cable management.
- Bolt Mount (FSB1) bolts through a ½" to 3" diameter hole in surfaces up to 1½" thick.
- Clamp Mount (FSS1) clamps to a surface edge ½" - 2¾" thick.

Spring Adjustable Monitor Arm

- Arms include both 75mm and 100mm VESA mounting brackets and supports monitors/accessories up to 15 lbs.
- Arms provide a 360° view in portrait or landscape, with a 10½" height adjustment range.
- Clamps to surfaces ½" - 2¾" thick.

Vertical Adjustment Mechanism (FSVAMBK)

- Front adjustment mechanism can be added to any arm to provide 9" of vertical adjustment without manual repositioning on post; for monitors up to 15 lbs.
- Finish is silver with black trim.

NOTES

- » Additional multiple monitor combinations available upon request; consult factory.

How to Specify

Step 1. Product Number

MONITOR ARMS, ADD-ON POST

- Add-on Post with articulating monitor arm adds a second tier to monitor arm posts.
- The extension arm extends in or out and can be rotated up to 360 degrees. Height is adjustable along the length of the post-mounted base.
- Can be used in conjunction with a separate keyboard or notebook holder.
- Arm supports monitors/accessories up to 15 lbs.
- Must order surface bolt or clamp mount arm separately; see page 11.6.

MONITORS ARMS, END/CENTER/SADDLE MOUNT

- Arms include both 75mm and 100mm VESA mounting brackets and support monitors/accessories weighing up to 15 lbs.
- Arms provide a 360° view in portrait or landscape, with built-in cable management.
- Center Mount style (FSC1) attaches at a frame joint and adjusts vertically in 1" increments.
- End Mount style (FSE1) attaches to the end of a Riser Frame and adjusts in 6" increments.
- Saddle Mount style (FSU1) straddles the vertical tube of an UltraFrame, Riser Frame or Connector Post and adjusts in 1" increments. The saddle bracket allows flat screen/accessory mounting on the front, inside or back of the frame.
- Add-on Arms (FSA1xM) attach to the front, inside or back mounting positions on an FSU1. Up to two sets of Add-on arms can be attached to the Saddle Mount bracket for a total capacity of 3 arms on an FSU1, one in each position.
- Finish is black.

How to Specify

Step 1. Product Number

- FSE1 Monitor Arm, End Mount, 1 monitor
- FSC1 Monitor Arm, Center Mount, 1 monitor
- FSU1 Monitor Arm, Saddle Mount, 1 monitor
- FSA1 Add-on Arm

Step 2. Arm Type

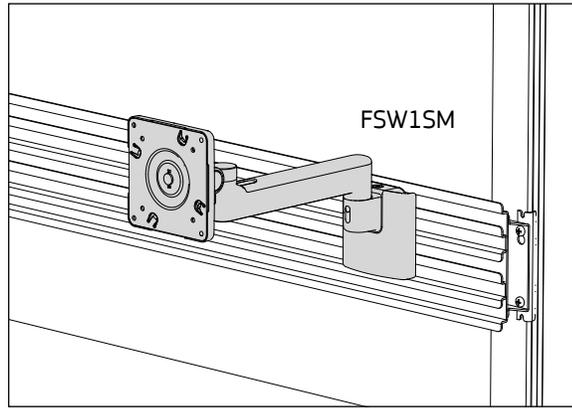

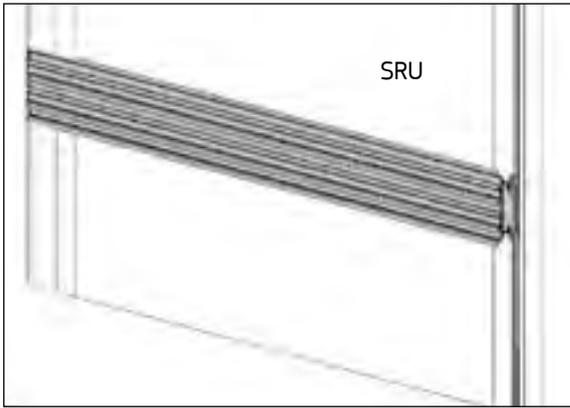

- SM Single arm
- DM Double arm

NOTES

- » Additional multiple monitor combinations available upon request; consult factory.
- » A Vertical Adjustment Mechanism can be added to any arm to provide 9" of vertical adjustment without manual repositioning of the clip-mounted bases. Sold separately; see page 11.6.
- » FSU1 does not attach to Riser Spines, but can be mounted on UltraFrame Spines.
- » End Covers cannot be used on the end of a Riser Frame when a FSE1 is attached.

Rev 01/06/21

SLATWALL RAIL AND MONITOR ARM

Slatwall Rail

- Provides mounting of slatwall-mounted arms and industry standard slatwall components with horizontal adjustment.
- 3" center-to-center mounting.
- Two mounting locations offering 3" of vertical adjustment on rail.
- Horizontal rails allow for mounting of standard hang-on style plastic parts bins.

Monitor Arm, Slatwall Mount

- Arms include both 75mm and 100mm VESA mounting brackets and support monitors/accessories up to 15 lbs.
- Arms provide a 360° view in portrait or landscape, with built-in cable management.

NOTES

- » For mounting Slatwall Rail on UltraFrame System, order Rail to fit appropriate frame size; see below.
- » A Vertical Adjustment Mechanism can be added to any arm to provide 9" of vertical adjustment without manual repositioning of the clip-mounted bases; see page 11.6.

How to Specify

Step 1. Product Number

- SRU Slatwall Rail
- FSW1 Monitor Arm, Slatwall Mount

Step 2a. Width (Slatwall Rail only)

ARM MOUNT PLATFORM AND NOTEBOOK HOLDER

Arm Mount Platform, Keyboard and Mouse Tray

- Arm Mount Platform helps to save valuable workspace and mounts to all Symbiote Monitor Arms.
- Keyboard Tray is 10⁵/₈" deep by 20¹/₈" wide, and includes a black non-skid pad and removable foam wrist rest.
- A 9" diameter round Mouse Tray is included with each Keyboard Tray. Mouse Trays can be mounted on the left or right side of Keyboard Trays and swivel 270° to hide under trays when needed.
- Mouse Trays include a black non-skid pad and moveable stopper to protect the mouse from falling off the tray.
- Load capacity 15 lbs.
- Finish is Black.

Notebook Holder

- Notebook Holder has an adjustable tray and supports notebooks up to 18" for a more ergonomic workspace.
- Holder can attach to any arm, positioning the holder at the optimum height and focal length.
- Viewing angle can be tilted up to 35° forward to reduce screen glare.
- Tray supports notebooks or accessories up to 12 lbs.
- Finish is Silver or White.

How to Specify

Step 1. Product Number

BINS AND BIN RAILS

Bin Rails, Frame Mount

- Bin Rails provide hanging support for generic parts bins.
- Rails mount to frames, adjusting vertically in 1" increments.
- Load capacity 40 lbs. evenly distributed.

Bin Rail, Monitor Arm Mount

- Rails provide articulating support for up to 3 rows of generic parts bins.
- Rails attach to Monitor Arms, sold separately; see pages 11.6-11.8.
- Load capacity 12 lbs. evenly distributed.

Plastic Bins

- Bins provide storage and organization of small items hanging from Bin Rails or can be stacked together.
- Made from a heavy-duty industrial grade polymer.
- Load capacity 30 lbs. Sold in packs of 5.

SUBCONTAINERS AND SUBDIVIDERS

Subcontainers

- Sold individually, subcontainers provide storage and organization of small items.
- Subcontainers hang from Dispensing Rails at a 20° slope or lay flat in Totes and Plan Drawers for organization.
- A-size Subcontainers are used with A-size Dispensing Rails and A-size Totes.
- B-size Subcontainers are used with B-size Dispensing Rails and B-size Totes.

Subdividers

- Subdividers divide Subcontainers laterally.
- A-size Subdividers are used with A-size Subcontainers.
- B-size Subdividers are used with B-size Subcontainers.
- Sold in 10 unit packs.

How to Specify

Step 1. Product Number

- SA Subcontainer, A-Size, 2 ¼" H
- SB Subcontainer, B-Size, 5 ¼" H
- SAD Subdivider, A-Size, 10 pack
- SBD Subdivider, B-Size, 10 pack

Step 2. Depth (Subcontainers only)

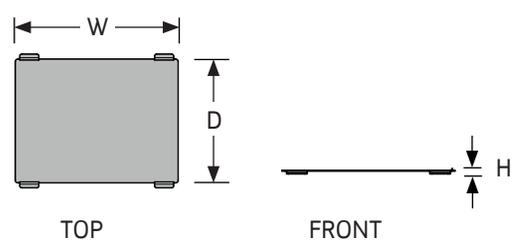

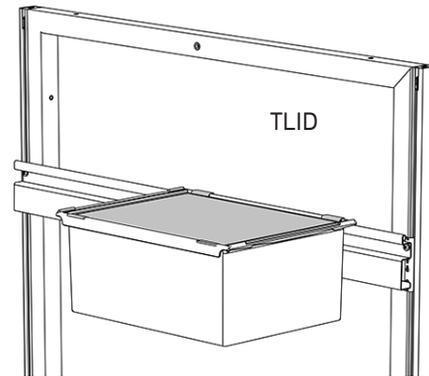

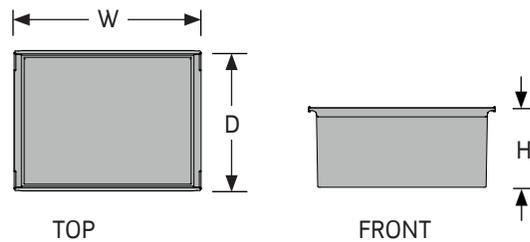

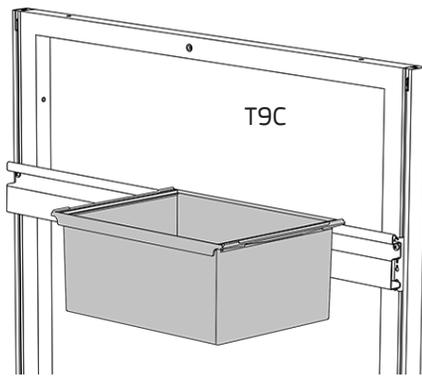

- 1 4 ¼" deep
- 2 9 ¼" deep (not offered for SB)
- 3 13 ¾" deep

TOTES

- Totes provide storage and a means of transportation for materials in workstations.
- Totes hang from Tote Rails, mount beneath surfaces as drawers using Tote Bearers or slide into Tote Holders and Mobile Tote Frames for use as drawers.
- Load capacity 50 lbs. when used with Tote Rails and 25 lbs. when used with Tote Bearers, Tote Holders and Mobile Tote Frames.
- Totes are made with Zylar® 650 an impact modified styrene acrylic copolymer which provides a balance of clarity and toughness.
- Tote material meets USP XXIII specifications for Class VI plastics
- Tote material is UL 94 HB approved and is recyclable.
- Finish is Ice.

NOTES

- » Tote Rails, Tote Bearers, Tote Holders and Mobile Tote Frames sold separately; see pages 12.6 - 12.8.

How to Specify

Step 1. Product Number

- T Tote
- TLID Tote Lid

Step 2. Height (Tote only)

MOBILE TOTE FRAMES

- Tote Frames, available in standard and dissipative* laminates, provide mobile storage for Symbiote Totes.
- Steel unit has a 1" high standard or dissipative laminate top with matching vinyl Edge-band, four 3" twin-wheel braking casters and Tote Slots placed at 3" intervals.
- Six-slot Tote Frames provide 18" of usable height; 8 slot-frames provide 24"; and, 12 slot-frames provide 36".
- * Nevamar® Static Dissipative Laminate (SDL) Surfaces have a Point to point and point to ground resistance of 1 x 10⁶ to 1 x 10⁹ ohms @ 10-60% relative humidity. Conforms to ESD Association Standard ESD-S4.1.
- Dissipative surfaces include a Laminate Grounding Terminal Kit and Ground Chain.
- Load capacity 250 lbs. per frame; maximum capacity 25 lbs. per individual Tote.

NOTES

- » Symbiote Totes sold separately; see page 12.5.
- » If either paint or laminate is dissipative, use the dissipative price.
- » Other dissipative laminates available upon request; consult factory.
- » Customers are responsible for specifying ESD surface requirements; corporate ESD standards must be consulted prior to ordering.

MOBILE CARTS

- Mobile Cart functions as a single-sided mobile workstation; or as an assembly process or rack cart.
- 2" steel frame provides structural support for and permits vertical adjustment of components in 1" increments. 52" high carts provide 43" of usable hanger track; 66" high carts provide 57".
- Equipped with connection points for end mounting of Monitor Arms and attachment points for ESD grounding hardware.
- Includes 4" diameter polypropylene casters with totallock brakes (simultaneously locks the swivel and wheel).
- Load capacity 500 lbs. evenly distributed.

NOTES

- » Maximum component depth is 24 inches.
- » Mount components only on the front side of Mobile Carts; plastic tubing inserted in the back side prevents mounting of components.
- » Optional Mobile Cart Handles and End Covers to finish exposed hardware available. Sold separately; see page 12.10.

MOBILE CART HANDLES, END COVERS

Mobile Cart Handles

- Mobile Cart Handles bolt to the ends of Mobile Carts and are composed of 1" diameter steel tubing covered with black foam grip.
- Handles mount in one vertical position only when used in conjunction with Mobile Cart End Covers.
- Handles are adjustable in 6" increments when not used with other components.
- Sold in pairs.
- Finish is Black Texture.

Mobile Cart End Covers

- Metal covers finish exposed hardware on the ends of Mobile Carts when Mobile Cart Handles are used.
- Includes four metal covers to finish the exposed hardware above and below the handles on each side of the cart, as well as attachment hardware.
- Finish must be specified.

NOTES

- » To finish exposed hardware on the ends of Mobile Carts when handles are not used, use Panel End Covers. 52" high carts require two EC48 and 66" high carts require two EC62. Sold separately; see page 2.12.
- » Tote drawers available; consult factory.
